**Notes to Condensed Consolidated Financial Statements
(Unaudited)**

Note 1. Basis of Financial Statement Presentation

The condensed consolidated financial statements contained herein are unaudited and have been prepared from the books and records of KEMET Corporation and its subsidiaries ("KEMET" or the "Company"). In the opinion of management, the condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods. The condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q, and therefore, do not include all information and footnotes necessary for a complete presentation of financial position, results of operations, and cash flows in conformity with U.S. generally accepted accounting principles ("U.S. GAAP"). Although the Company believes the disclosures are adequate to make the information presented not misleading, it is suggested that these condensed consolidated financial statements be read in conjunction with the audited financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended March 31, 2014 (the "Company's 2014 Annual Report").

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. In consolidation, all significant intercompany amounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation. Net sales and operating results for the quarter ended June 30, 2014 are not necessarily indicative of the results to be expected for the full year.

The Company's significant accounting policies are presented in the Company's 2014 Annual Report.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, assumptions, and judgments based on historical data and other assumptions that management believes are reasonable. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of revenues and expenses during the reporting period.

The Company's judgments are based on management's assessment as to the effect certain estimates, assumptions, or future trends or events may have on the financial condition and results of operations reported in the unaudited condensed consolidated financial statements. It is important that readers of these unaudited financial statements understand that actual results could differ from these estimates, assumptions, and judgments.

Recently Issued Accounting Pronouncements

New accounting standards adopted

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers, which supersedes existing accounting standards for revenue recognition and creates a single framework. The new guidance is effective for the Company's fiscal year that begins on April 1, 2017 and interim periods within that fiscal year and requires either a retrospective or a modified retrospective approach to adoption. The Company is currently evaluating the potential impact on its Consolidated Financial Statements and related disclosures, as well as the available transition methods. Early adoption is prohibited.

There are currently no other accounting standards that have been issued that will have a significant impact on the Company's financial position, results of operations or cash flows upon adoption.

Restricted Cash

As discussed in Note 3, *Debt*, the Company received a \$24.0 million prepayment from an original equipment manufacturer ("OEM") and, through June 30, 2014, utilized \$13.0 million for the purchase of manufacturing equipment. The remaining proceeds of \$11.0 million are classified as restricted cash at June 30, 2014.

A bank guarantee in the amount of €1.5 million (\$2.0 million) was issued by a European bank on behalf of the Company in August 2006 in conjunction with the establishment of a Value-Added Tax ("VAT") registration in The Netherlands. Accordingly, a deposit was placed with the European bank for €1.7 million (\$2.3 million). While the deposit is in KEMET's

name, and KEMET receives all interest earned by this deposit, the deposit is pledged to the European bank, and the bank can use the funds if a valid claim against the bank guarantee is made. The bank guarantee will remain valid until it is discharged by the beneficiary.

Fair Value Measurement

The Company utilizes three levels of inputs to measure the fair value of (a) nonfinancial assets and liabilities that are recognized or disclosed at fair value in the Company’s consolidated financial statements on a recurring basis (at least annually) and (b) all financial assets and liabilities. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

The first two inputs are considered observable and the last is considered unobservable. The levels of inputs are as follows:

- Level 1—Quoted prices in active markets for identical assets or liabilities.
- Level 2—Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets and liabilities measured at fair value on a recurring basis as of June 30, 2014 and March 31, 2014 are as follows (amounts in thousands):

	Carrying Value	Fair Value June 30,	Fair Value Measurement Using			Carrying Value	Fair Value	Fair Value Measurement Using		
	June 30,	2014	Level 1	Level 2 (2)	Level 3	March 31,	March 31,	Level 1	Level 2 (2)	Level 3
	2014					2014	2014			
Assets:										
Money markets (1)	\$ 725	\$ 725	\$ 725	\$ —	\$ —	\$ 714	\$ 714	\$ 714	\$ —	\$ —
Total debt	403,837	416,847	375,413	41,434	—	398,589	409,284	371,863	37,421	—
NEC TOKIN options, net (3)	7,700	7,700	—	—	7,700	3,600	3,600	—	—	3,600

- (1) Included in the line item “Cash and cash equivalents” on the Condensed Consolidated Balance Sheets.
- (2) The valuation approach used to calculate fair value was a discounted cash flow for each respective debt facility.
- (3) See Note 6, Investment in NEC TOKIN, for a description of the NEC TOKIN options. The value of the options is interrelated and depends on the enterprise value of NEC TOKIN Corporation and its forecasted EBITDA over the duration of the instruments. Therefore, the options have been valued using option pricing methods in a Monte Carlo simulation.

The table below summarizes NEC TOKIN option valuation activity using significant unobservable inputs (Level 3) (amounts in thousand):

March 31, 2014	\$ 3,600
Change in value of NEC TOKIN options	4,100
June 30, 2014	<u>\$ 7,700</u>

Inventories

Inventories are stated at the lower of cost or market. The components of inventories are as follows (amounts in thousands):

	June 30, 2014	March 31, 2014
Raw materials and supplies	\$ 90,524	\$ 90,968
Work in process	57,768	61,310

Inventory reserves (1)	(21,481)	(26,826)
	<u>\$ 189,405</u>	<u>\$ 187,974</u>

(1) During the three month period ended June 30, 2013, the Company recorded a \$3.9 million reserve for inventory held by a third party. In the quarter ended June 30, 2014 this \$3.9 million was written off.

Warrant

As of June 30, 2014 and March 31, 2014, 8.4 million shares were subject to the warrant held by K Equity, LLC.

Revenue Recognition

The Company ships products to customers based upon firm orders and revenue is recognized when the sales process is complete. This occurs when products are shipped to the customer in accordance with the terms of an agreement of sale, there is a fixed or determinable selling price, title and risk of loss have been transferred and collectability is reasonably assured. Shipping and handling costs are included in cost of sales.

A portion of sales is related to products designed to meet customer specific requirements. These products typically have stricter tolerances making them useful to the specific customer requesting the product and to customers with similar or less stringent requirements. The Company recognizes revenue when title to the products transfers to the customer.

A portion of sales is made to distributors under agreements allowing certain rights of return and price protection on unsold merchandise held by distributors. The Company's distributor policy includes inventory price protection and "ship-from-stock and debit" ("SFSD") programs common in the industry.

KEMET's SFSD program provides authorized distributors with the flexibility to meet marketplace prices by allowing them, upon a pre-approved case-by-case basis, to adjust their purchased inventory cost to correspond with current market demand. Requests for SFSD adjustments are considered on an individual basis, require a pre-approved cost adjustment quote from their local KEMET sales representative and apply only to a specific customer, part, specified special price amount, specified quantity, and is only valid for a specific period of time. To estimate potential SFSD adjustments corresponding with current period sales, KEMET records a sales reserve based on historical SFSD credits, distributor inventory levels, and certain accounting assumptions, all of which are reviewed quarterly.

Most of the Company's distributors have the right to return to KEMET a certain portion of the purchased inventory, which, in general, does not exceed 6% of their purchases from the previous fiscal quarter. KEMET estimates future returns based on historical patterns of the distributors and records an allowance on the Condensed Consolidated Balance Sheets. The Company also offers volume based rebates.

The establishment of sales allowances is recognized as a component of the line item "Net sales" on the Condensed Consolidated Statements of Operations, while the associated reserves are included in the line item "Accounts receivable, net" on the Condensed Consolidated Balance Sheets. Estimates used in determining sales allowances are subject to various factors. This includes, but is not limited to, changes in economic conditions, pricing changes, product demand, inventory levels in the supply chain, the effects of technological change, and other variables that might result in changes to the Company's estimates.

The Company provides a limited warranty to customers that the Company's products meet certain specifications. The warranty period is generally limited to one year, and the Company's liability under the warranty is generally limited to a replacement of the product or refund of the purchase price of the product. Warranty costs as a percentage of net sales were 1.0% or less for the quarters ended June 30, 2014 and 2013. The Company recognizes warranty costs when they are both probable and reasonably estimable.

Note 2. Discontinued Operations

The Film and Electrolytic Business group completed the sale of its Machinery division in April, 2014, which resulted in a \$7.4 million net gain on sale of the business (after income tax expense) offset by a loss from machinery operations of \$0.4 million during the first quarter of fiscal year 2015 resulting in a net gain on discontinued operations of \$6.9 million.

Net sales and net operating loss from the Company's discontinued operation for the quarters ended June 30, 2014 and 2013 were (amounts in thousands):

	Quarters Ended June 30,	
	2014	2013
Net sales	\$ 104	\$ 666

Revolving Line of Credit

KEMET Electronics Corporation ("KEC") and KEMET Electronics Marketing (S) Pte Ltd. ("KEMET Singapore") (each a "Borrower" and, collectively, the "Borrowers") entered into a Loan and Security Agreement (the "Loan and Security Agreement") which provides a \$50.0 million revolving line of credit. A portion of the U.S. and Singapore facilities can be used to issue letters of credit ("Letters of Credit").

On September 24, 2013, the Company borrowed \$9.0 million from the revolving line of credit at a rate of 5.75% (Base Rate, as defined in the Loan and Security Agreement, plus 2.5%). As this is a base rate borrowing, there is not a specific repayment date and the amount can be repaid at any time prior to the expiration of the facility. On September 27, 2013, the Company borrowed an additional \$12.0 million from the revolving line of credit at a rate of 4.0% (London Interbank Offer Rate ("LIBOR") plus 3.75% based upon the fixed charge coverage ratio of KEMET Corporation and its subsidiaries on a consolidated basis). The term on this borrowing was originally 31 days with total interest and principal payable at maturity on

October 28, 2013, however, it has been extended monthly and is currently due on August 26, 2014. On June 27, 2014, the Company borrowed an additional \$7.5 million, which was repaid subsequent to June 30, 2014. These were the only borrowings under the revolving line of credit and \$25.9 million remained outstanding as of June 30, 2014 after the Company made repayments totaling \$2.6 million. As of June 30, 2014, the Company's available borrowing capacity under the Loan and Security Agreement was \$0.6 million (after \$16.0 million used for letters of credit as described below).

As described below in the section titled "Advanced Payment from OEM", a standby letter of credit for \$16 million was delivered to the OEM on October 8, 2012. In fiscal year 2014, the Company issued two letters of credit for €1.1 million (\$1.5 million) and €0.7 million (\$0.9 million) related to the construction of the new manufacturing location in Italy which were canceled in February 2014 and April 2014, respectively. Outstanding letters of credit reduced the Company's availability under the Loan and Security Agreement.

Advanced Payment from OEM

On August 28, 2012, the Company entered into and amended an agreement (the "Agreement") with an OEM, pursuant to which the OEM agreed to advance the Company \$24.0 million (the "Advance Payment"). As of June 30, 2014 and March 31, 2014, the Company had \$19.5 million and \$20.4 million, respectively, outstanding due to the OEM. On a monthly basis starting in June 2013, the Company began repaying the OEM an amount equal to a percentage of the aggregate purchase price of the capacitors sold to the OEM the preceding month, not to exceed \$1.0 million per month. Pursuant to the terms of the Agreement, the percentage of the aggregate purchase price of capacitors sold to the OEM used to repay the Advance Payment will double, not to exceed \$2.0 million per month, in the event that (1) the OEM provides evidence that the price charged by KEMET for a particular capacitor during any prior quarter was equal to or greater than 110% of the price paid by the OEM or its affiliates for a third-party part qualified for the same product, and shipping in volume during such period; and, (2) agreement cannot be reached between the OEM and the Company for a price adjustment during the current quarter which would bring KEMET's price within 110% of the third-party price. In June 2015, the outstanding balance, if any, is due in full. Pursuant to the terms of the Agreement, the Company delivered to the OEM an irrevocable standby Letter of Credit in the amount of \$16.0 million on October 8, 2012; and, on October 22, 2012, the Company received the Advance Payment from the OEM.

The OEM may demand repayment of the entire balance outstanding or draw upon the Letter of Credit if any of the following events occur while the Agreement is still in effect: (i) the Company commits a material breach of the Agreement, the statement of work or the master purchase agreement between the OEM and the Company; (ii) the Company's credit rating issued by Standard & Poor's Financial Services LLC or its successor or Moody's Investors Services, Inc. or its successors drops below CCC+ or Caa1, respectively; (iii) the Company's cash balance on the last day of any fiscal quarter is less than \$60.0 million; (iv) the Letter of Credit has been terminated without being replaced prior to repayment of the Advance Payment amount; (v) the Company or substantially all of its assets are sold to a party other than a subsidiary of the Company; (vi) all or substantially all of the assets of a subsidiary of the Company, or any of the shares of such subsidiary, are sold, whose assets are used to develop and produce the Goods; (vii) the Company or any subsidiary which accounts for 20% or more of the Company's consolidated total assets ("Company Entity") applies for judicial or extra judicial settlement with its creditors, makes an assignment for the benefit of its creditors, voluntarily files for bankruptcy or has a receiver or trustee in bankruptcy appointed by reason of its insolvency, or in the event of an involuntary bankruptcy action, liquidation proceeding, dissolution or similar proceeding is filed against a Company Entity and not dismissed within sixty (60) days. To the Company's best knowledge and belief, none of these triggers have been met including maintaining a minimum cash balance since the Company's cash balance (including restricted cash under the OEM agreement) exceeds the \$60.0 million threshold.

10.5% Senior Notes

As of June 30, 2014 and March 31, 2014, the Company had outstanding \$355.0 million in aggregate principal amount of the Company's 10.5% Senior Notes due May 1, 2018 (the "10.5% Senior Notes"). The Company had interest payable related to the 10.5% Senior Notes included in the line "Accrued expenses" on its Condensed Consolidated balance sheets of \$6.2 million and \$15.5 million at June 30, 2014 and March 31, 2014, respectively.

Note 4. Restructuring Charges

The Company is in the process of a restructuring plan to make the Company more competitive by removing excess capacity, relocating production to lower cost locations, and eliminating unnecessary costs throughout the Company.

A summary of the expenses aggregated on the Condensed Consolidated Statements of Operations line item "Restructuring charges" in the quarters ended June 30, 2014 and 2013, is as follows (amounts in thousands):

	Quarters Ended June 30,	
	2014	2013
Manufacturing relocation costs	\$ 1,684	\$ 475
Personnel reduction costs	146	4,135
Total restructuring charges	\$ 1,830	\$ 4,610

Quarter Ended June 30, 2014

The Company incurred \$1.8 million in restructuring charges in the quarter ended June 30, 2014 including \$0.1 million of personnel reduction costs due to a reduction in overhead in Europe and \$1.7 million of manufacturing relocation costs primarily due to the shut-down of the Tantalum production line in Evora, Portugal

Quarter Ended June 30, 2013

The Company incurred \$4.6 million in restructuring charges in the quarter ended June 30, 2013 including \$4.1 million related to personnel reduction costs which is primarily comprised of the following: \$1.9 million related to the closure of a portion of our innovation center in the U.S., \$1.1 million related to the reduction of the solid capacitor production workforce in Mexico, \$0.7 million related to the Company's initiative to reduce overhead and \$0.4 million related to an additional Cassia Integrazione Guadagni Straordinaria ("CIGS") plan in Italy. The additional expense related to CIGS is as a result of an agreement with the labor union which allowed the Company to place up to 170 employees, on a rotation basis, on the CIGS plan to save labor costs. CIGS is a temporary plan to save labor costs whereby a company may temporarily "lay off" employees while the government continues to pay their wages for a maximum of 12 months during the program. The employees who are in CIGS are not working, but are still employed by the Company. Only employees that are not classified as management or executive level personnel can participate in the CIGS program and upon termination of the plan, the affected employees return to work.

In addition to these personnel reduction costs, the Company incurred manufacturing relocation costs of \$0.5 million due to the consolidation of manufacturing facilities within Italy and relocation of manufacturing equipment to Evora, Portugal.

Reconciliation of restructuring liability

A reconciliation of the beginning and ending liability balances for restructuring charges included in the line items "Accrued expenses" and "Other non-current obligations" on the Condensed Consolidated Balance Sheets for the quarters ended June 30, 2014 and 2013 are as follows (amounts in thousands):

Balance at June 30, 2013	\$ 15,810	\$ (7,487)	\$ 1,748	\$ (651)	\$ 9,420

- (1) Due primarily to the Company's permanent re-investment assertion relating to foreign earnings, there were no significant deferred tax effects associated with the cumulative currency translation gains and losses during three month periods ended June 30, 2014 and 2013.
- (2) Ending balance is net of tax of \$2.2 million and \$2.3 million as of June 30, 2014 and June 30, 2013, respectively.

Note 6. Investment in NEC TOKIN

On March 12, 2012, KEMET Electronics Corporation ("KEC"), a wholly owned subsidiary of the Company, entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") to acquire 51% of the common stock (representing a 34% economic interest) of NEC TOKIN Corporation ("NEC TOKIN"), a manufacturer of tantalum capacitors, electro-magnetic, electro-mechanical and access devices, (the "Initial Purchase") from NEC Corporation ("NEC") of Japan. The transaction closed on February 1, 2013, at which time KEC paid a purchase price of \$50.0 million for new shares of common stock of NEC TOKIN (the "Initial Closing"). The Company accounts for its investment using the equity method in a non-consolidated variable interest entity since KEC does not have the power to direct significant activities of NEC TOKIN.

In connection with KEC's execution of the Stock Purchase Agreement, KEC entered into a Stockholders' Agreement (the "Stockholders' Agreement") with NEC TOKIN and NEC, which provides for restrictions on transfers of NEC TOKIN's capital stock, certain tag-along and first refusal rights on transfer, restrictions on NEC's ability to convert the preferred stock of NEC TOKIN held by it, certain management services to be provided to NEC TOKIN by KEC (or an affiliate of KEC) and certain board representation rights. KEC holds four of seven NEC TOKIN director positions. However, NEC has significant board rights.

Concurrent with execution of the Stock Purchase Agreement and the Stockholders' Agreement, KEC entered into an Option Agreement (the "Option Agreement") with NEC whereby KEC may purchase additional shares of NEC TOKIN common stock from NEC TOKIN for a purchase price of \$50.0 million resulting in an economic interest of approximately 49% while maintaining ownership of 51% of NEC TOKIN's common stock (the "First Call Option") by providing notice of the First

[Table of Contents](#)

Call Option between the Initial Closing and August 31, 2014. Upon providing such notice, but not before August 1, 2014, KEC may also exercise an option to purchase all outstanding capital stock of NEC TOKIN from its stockholders, primarily NEC, for a purchase price based on the greater of six times LTM EBITDA (as defined in the Option Agreement) less the previous payments and certain other adjustments, or the outstanding amount of NEC TOKIN's debt obligation to NEC (the "Second Call Option") by providing notice of the Second Call Option by May 31, 2018. From August 1, 2014 through May 31, 2018, NEC may require KEC to purchase all outstanding capital stock of NEC TOKIN from its stockholders, primarily NEC. However, NEC may only exercise this right (the "Put Option") from August 1, 2014 through April 1, 2016 if NEC TOKIN achieves certain financial performance measures. The purchase price for the Put Option will be based on the greater of six times LTM EBITDA less previous payments and certain other adjustments, or the outstanding amount of NEC TOKIN's debt obligation to NEC as of the date the Put Option is exercised. The purchase price for the Put Option is reduced by the amount of NEC TOKIN's debt obligation to NEC which KEC will assume. The determination of the purchase price will be modified in the event there is a disagreement between NEC and KEC under the Stockholders' Agreement. In the event the Put Option is exercised, NEC will be required to maintain in place the outstanding debt obligation owed by NEC TOKIN to NEC. The Company has marked these options to fair value and in the quarter ended June 30, 2014 recognized a \$4.1 million gain which was included on the line item "Other (income) expense, net" in the Condensed Consolidated Statement of Operations. The value included for the options in the line item "Other assets" on the Condensed Consolidated Balance Sheets as of June 30, 2014, is \$7.7 million.

Summarized financial information for NEC TOKIN follows (amounts in thousands):

	June 30, 2014	March 31, 2014
Current assets	\$ 239,025	\$ 245,709
Non-current assets	311,389	302,161

Other	(901)	(952)
KEMET's 34% economic interest of NEC TOKIN's net assets	<u>\$ 21,869</u>	<u>\$ 22,451</u>

The above basis differences (except Goodwill) are being amortized over the respective estimated life of the assets. As of June 30, 2014, KEC's maximum loss exposure as a result of its investments in NEC TOKIN is limited to the aggregate of the carrying value of the investment and any accounts receivable balance due from NEC TOKIN. For the quarter ended June 30, 2014, KEMET recorded sales of \$1.9 million to NEC TOKIN and as of June 30, 2014, KEMET's accounts receivable from NEC TOKIN was \$1.6 million. In accordance with the Stockholders' Agreement, KEC entered into a management services agreement with NEC TOKIN to provide services for which KEC would be reimbursed. As of June 30, 2014, KEMET's receivable balance under this agreement was \$0.6 million.

In March and April, 2014, NEC TOKIN and certain of its subsidiaries received inquiries, requests for information and other communications from government authorities in China, the United States, the European Commission, Japan and South Korea concerning alleged anti-competitive activities within the capacitor industry. The investigations are at an early stage. As of this date, except for legal expenses, NEC TOKIN has not recorded an accrual as a result of the investigations.

Note 7. Segment and Geographic Information

The Company is organized into two business groups: Solid Capacitors and Film and Electrolytic. The business groups are responsible for their respective manufacturing sites as well as their respective research and development efforts. Consistent with management reporting, the Company does not allocate indirect Selling, general and administrative ("SG&A") and Research and development ("R&D") expenses to the business groups.

Solid Capacitors

Operating in nine manufacturing sites in the United States, Mexico, China and Portugal, Solid Capacitors primarily produces tantalum, aluminum, polymer and ceramic capacitors which are sold globally. Solid Capacitors also produces tantalum powder used in the production of tantalum capacitors and has a product innovation center in the United States.

Film and Electrolytic

Operating in twelve manufacturing sites throughout Europe, Asia, and the United States, Film and Electrolytic primarily produces film, paper, and electrolytic capacitors which are sold globally. Film and Electrolytic also manufactures etched foils utilized as a core component in the manufacture of electrolytic capacitors. In addition, this business group has product innovation centers in the United Kingdom, Italy, Germany and Sweden.

Note 8. Defined Benefit Pension and Other Postretirement Benefit Plans

The Company sponsors six defined benefit pension plans in Europe, one plan in Singapore and two plans in Mexico. In addition, the Company sponsors a post-retirement plan in the United States. Costs recognized for benefit plans are recorded using estimated amounts which may change as actual costs for the fiscal year are determined.

The components of net periodic benefit (income) costs relating to the Company's pension and other postretirement benefit plans are as follows for the quarters ended June 30, 2014 and 2013 (amounts in thousands):

	Pension				Post-retirement Benefit Plan			
	Quarters Ended June 30,				Quarters Ended June 30,			
	2014		2013		2014		2013	
Net service cost	\$	338	\$	331	\$	—	\$	—
Interest cost		478		428		6		5

Prior service cost		4		1		—		—
Total net periodic benefit (income) costs	\$	770	\$	729	\$	(46)	\$	(65)

In fiscal year 2015, the Company expects to contribute up to \$1.6 million to the pension plans, \$0.3 million of which has been contributed as of June 30, 2014. For the postretirement benefit plan, the Company's policy is to pay benefits as costs are incurred.

Note 9. Stock-based Compensation

The Company's stock-based compensation plans are broad-based, long-term retention programs intended to attract and retain talented employees and align stockholder and employee interests. At June 30, 2014, the Company had four stock option plans that reserved shares of common stock for issuance to executives and key employees: the 1992 Key Employee Stock Option Plan, the 1995 Executive Stock Option Plan, the 2004 Long-Term Equity Incentive Plan (collectively, the "Prior Plans") and the 2011 Omnibus Equity Incentive Plan (as amended by the 2014 Amendment and Restatement of the KEMET Corporation 2011 Omnibus Equity Incentive Plan) (the "2011 Incentive Plan"). The 2011 Incentive Plan authorizes the Company to provide equity-based compensation in the form of: (1) stock options, including incentive stock options, entitling the optionee to favorable tax treatment under Section 422 of the Code; (2) stock appreciation rights; (3) restricted stock and restricted stock units; (4) other share-based awards; and, (5) performance awards. Options issued under these plans vest within one to three years and expire ten years from the grant date. The Company grants restricted stock units to members of the Board of Directors, the Chief Executive Officer and a limited group of executives. Once vested and settled, restricted stock units are converted into restricted stock and cannot be sold until 90 days after the Chief Executive Officer, the executive or the member of the Board of Directors, as applicable, resigns from his or her position, or until the individual achieves the targeted ownership under the Company's stock ownership guidelines, and only to the extent that such ownership level exceeds the target. Compensation expense is recognized over the respective vesting periods.

Historically, the Board of Directors of the Company has approved annual Long Term Incentive Plans ("LTIP") which cover two year periods and are primarily based upon the achievement of an Adjusted EBITDA target for the two-year period. At the time of the award, the individual plans entitle the participants to receive cash or restricted stock units, or a combination of both as determined by the Company's Board of Directors. The 2013/2014 LTIP, 2014/2015 LTIP and 2015/2016 LTIP also awarded restricted stock units which vest over the course of three years from the anniversary of the establishment of the plan and are not subject to a performance metric. The Company assesses the likelihood of meeting the Adjusted EBITDA financial metric on a quarterly basis and adjusts compensation expense to match expectations. Any related liability is reflected in the line item "Accrued expenses" on the Condensed Consolidated Balance Sheets and any restricted stock unit commitment is reflected in the line item "Additional paid-in capital" on the Condensed Consolidated Balance Sheets.

The compensation expense associated with stock-based compensation for the quarters ended June 30, 2014 and 2013 is recorded on the Condensed Consolidated Statements of Operations as follows (amounts in thousands):

	Quarter Ended June 30, 2014			Quarter Ended June 30, 2013		
	Stock Options	Restricted Stock	LTIPs	Stock Options	Restricted Stock	LTIPs
Cost of sales	\$ 108	\$ 21	\$ 217	\$ 138	\$ 63	\$ 114
Selling, general and administrative expenses	115	178	289	148	233	214
Research and development	5	—	61	10	—	49
Total	\$ 228	\$ 199	\$ 567	\$ 296	\$ 296	\$ 377

In the “Operating activities” section of the Condensed Consolidated Statements of Cash Flows, stock-based compensation expense was treated as an adjustment to Net loss for the quarters ended June 30, 2014, and 2013. Approximately three thousand and six thousand stock options were exercised in the quarters ended June 30, 2014 and 2013, respectively.

Note 10. Income Taxes

During the quarter ended June 30, 2014, the Company incurred \$1.3 million of income tax expense which is related to income taxes for continuing foreign operations. In addition, the Company incurred \$0.9 million of income tax expense related to the gain on sale of discontinued operations.

During the quarter ended June 30, 2013, the Company incurred \$1.8 million of income tax expense which was comprised of \$1.7 million related to income taxes for foreign operations and \$0.1 million of state income tax expense.

There is no U.S. federal income tax benefit from the quarters ended June 30, 2014 and 2013 due to a valuation allowance recorded on deferred tax assets.

Note 11. Basic and Diluted Net Loss Per Common Share

Common stock equivalents that could potentially dilute net loss per basic share in the future, but were not included in the computation of diluted earnings per share because the impact would have been anti-dilutive, are as follows (amounts in thousands):

	Quarters Ended June 30,	
	2014	2013
Assumed conversion of employee stock grants	1,568	1,987
Assumed conversion of warrants	6,824	6,687

Note 12. Concentrations of Risks

The Company sells to customers globally and, as the Company generally does not require collateral from its customers, on a monthly basis the Company evaluates customer account balances in order to assess the Company's financial risks of collection. One customer accounted for over 10% of the Company's net sales in the quarters ended June 30, 2014 and 2013. There were no accounts receivable balances from any customer exceeding 10% of gross accounts receivable at June 30, 2014 and March 31, 2014.

Electronics distributors are an important distribution channel in the electronics industry and accounted for 47% and 46% of the Company's net sales in the three month periods ended June 30, 2014 and 2013, respectively. As a result of the Company's concentration of sales to electronics distributors, the Company may experience fluctuations in the Company's operating results as electronics distributors experience fluctuations in end-market demand or adjust their inventory stocking levels.

Note 13. Condensed Consolidating Financial Statements

The 10.5% Senior Notes are fully and unconditionally guaranteed, jointly and severally, on a senior basis by certain of the Company's 100% owned domestic subsidiaries ("Guarantor Subsidiaries") and secured by a first priority lien on 51% of the capital stock of certain of our foreign restricted subsidiaries ("Non-Guarantor Subsidiaries"). The Company's Guarantor Subsidiaries and Non-Guarantor Subsidiaries are not consistent with the Company's business groups or geographic operations; accordingly this basis of presentation is not intended to present the Company's financial condition, results of operations or cash flows for any purpose other than to comply with the specific requirements for subsidiary guarantor reporting. The Company is required to present condensed consolidating financial information in order for the subsidiary guarantors of the Company's public debt to be exempt from reporting under the Securities Exchange Act of 1934, as amended.

Condensed consolidating financial statements for the Company's Guarantor Subsidiaries and Non-Guarantor Subsidiaries are presented in the following tables (amounts in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report contains certain statements that are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Actual outcomes and results may differ materially from those expressed in, or implied by, our forward-looking statements. Words such as "expects," "anticipates," "believes," "estimates" or other similar expressions and future or conditional verbs such as "will," "should," "would" and "could" are intended to identify such forward-looking statements. Readers of this report should not rely solely on the forward-looking statements and should consider all uncertainties and risks throughout this report as well as those discussed under Part I, Item 1A Risk Factors, of the Company's 2014 Annual Report. The statements are representative only as of the date they are made, and we undertook no obligation to update any forward-looking statement.

All forward-looking statements, by their nature, are subject to risks and uncertainties. Our actual future results may differ materially from those set forth in our forward-looking statements. We face risks that are inherent in the businesses and the market places in which we operate. While management believes these forward-looking statements are accurate and reasonable, uncertainties, risks and factors, including those described below, could cause actual results to differ materially from those reflected in the forward-looking statements.

Factors that may cause actual outcomes and results to differ materially from those expressed in, or implied by, these forward-looking statements include, but are not necessarily limited to, the following: (i) adverse economic conditions could impact our ability to realize operating plans if the demand for our products declines, and such conditions could adversely affect our liquidity and ability to continue to operate; (ii) continued net losses could impact our ability to realize current operating plans and could materially adversely affect our liquidity and our ability to continue to operate; (iii) adverse economic conditions could cause the write down of long-lived assets or goodwill; (iv) an increase in the cost or a decrease in the availability of our principal or single-sourced purchased materials; (v) changes in the competitive environment; (vi) uncertainty of the timing of customer product qualifications in heavily regulated industries; (vii) economic, political, or regulatory changes in the countries in which we operate; (viii) difficulties, delays or unexpected costs in completing the restructuring plan; (ix) equity method investment in NEC TOKIN expose us to a variety of risks; (x) acquisitions and other strategic transactions expose us to a variety of risks; (xi) inability to attract, train and retain effective employees and management; (xii) inability to develop innovative products to maintain customer relationships and offset potential price erosion in older products; (xiii) exposure to claims alleging product defects; (xiv) the impact of laws and regulations that apply to our business, including those relating to environmental matters; (xv) the impact of international laws relating to trade, export controls and foreign corrupt practices; (xvi) volatility of financial and credit markets affecting our access to capital; (xvii) the need to reduce the total costs of our products to remain competitive; (xviii) potential limitation on the use of net operating losses to offset possible future taxable income; (xix) restrictions in our debt agreements that limit our flexibility in operating our business; and (xx) additional exercise of the warrant by K Equity which could potentially result in the existence of a significant stockholder who could seek to influence our corporate decisions.

Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations and could cause actual results to differ materially from those included, contemplated or implied by the forward-looking statements made in this report, and the reader should not consider the above list of factors to be a complete set of all potential risks or uncertainties.

Accounting Policies and Estimates

The following discussion and analysis of financial condition and results of operations are based on the unaudited condensed consolidated financial statements included herein. Our significant accounting policies are described in Note 1 to the consolidated financial statements in our 2014 Annual Report. Our critical accounting policies are described under the caption "Critical Accounting Policies" in Item 7 of our 2014 Annual Report.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates, assumptions, and judgments based on historical data and other assumptions that management believes are reasonable. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of revenues and expenses during the reporting period.

Our judgments are based on management's assessment as to the effect certain estimates, assumptions, future trends or events may have on the financial condition and results of operations reported in the unaudited condensed consolidated financial

statements. It is important that readers of these unaudited financial statements understand that actual results could differ from these estimates, assumptions, and judgments.

Business Overview

KEMET is a leading global manufacturer of a wide variety of capacitors. Capacitors are fundamental components of most electronic circuits and are found in communication systems, data processing equipment, personal computers, cellular phones, automotive electronic systems, defense and aerospace systems, consumer electronics, power management systems and many other electronic devices and systems. Capacitors are typically used to filter out interference, smooth the output of power supplies, block the flow of direct current while allowing alternating current to pass and for many other purposes.

Manufacturing a broad line of tantalum, multilayer ceramic, solid and electrolytic aluminum and film and paper capacitors, KEMET's product line consists of nearly 5 million distinct part configurations distinguished by various attributes, such as dielectric (or insulating) material, configuration, encapsulation, capacitance level and tolerance, performance characteristics and packaging. Because most of our customers have multiple capacitance requirements, often within each of their products, our broad product offering allows us to meet the majority of their needs independent of application and end use.

KEMET operates 21 production facilities in Europe, North America, and Asia, and employs approximately 9,650 employees worldwide. Commodity manufacturing in the United States has been substantially relocated to our lower-cost manufacturing facilities in Mexico, China and Europe. Production remaining in the United States focuses primarily on early-stage manufacturing of new products and specialty products for which customers are predominantly located in North America.

Our products are sold into a wide range of different end markets, including computing, industrial, telecommunications, transportation, consumer, defense and healthcare across all geographic regions. No single end market industry accounted for more than 30% of net sales although, one customer, a distributor, accounted for more than 10% of net sales in the three month period ended June 30, 2014. During the three month period ended June 30, 2014 we introduced 276 new products of which 54 were first to market. In addition, we continue to focus on specialty products which accounted for 39.7% of our revenue over this period.

In fiscal year 2014, we shipped approximately 35 billion capacitors and in the three month period ended June 30, 2014 we shipped approximately 9 billion capacitors. We believe the long-term demand for capacitors will grow on a regional and global basis due to a variety of factors, including increasing demand for and complexity of electronic products, growing demand for technology in emerging markets and the ongoing development of new solutions for energy generation and conservation.

We are organized into two business groups: Solid Capacitors Business Group ("Solid Capacitors") and the Film and Electrolytic Business Group ("Film and Electrolytic"). The business groups are responsible for their respective manufacturing sites as well as all related research and development efforts. The sales, marketing and corporate finance functions are shared by each of the business groups.

Recent Developments and Trends

Net sales for the quarter ended June 30, 2014, of \$212.9 million decreased \$2.9 million or 1.4% from \$215.8 million for the quarter ended March 31, 2014. Despite the decrease in net sales, operating loss of \$0.6 million improved \$4.6 million from \$5.2 million in the quarter ended March 31, 2014.

The following items have been reflected in the financial statements for the quarter ended June 30, 2014.

Equity Investment

On March 12, 2012, KEMET Electronics Corporation ("KEC"), a wholly owned subsidiary of the Company, entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") to acquire 51% of the common stock (representing a 34% economic interest) of NEC TOKIN, a manufacturer of tantalum capacitors, electro-magnetic, electro-mechanical and access devices, (the "Initial Purchase") from NEC Corporation ("NEC") of Japan. The transaction closed on February 1, 2013, at which time KEC paid a purchase price of \$50.0 million for new shares of common stock of NEC TOKIN (the "Initial Closing"). The Company accounts for its investment in NEC TOKIN using the equity method in a non-consolidated variable interest entity since KEC does not have the power to direct significant activities of NEC TOKIN. In the quarters ended June 30, 2014 and June 30, 2013, we recognized equity loss from NEC TOKIN of \$.7 million and \$3.4 million, respectively. We believe our equity investment in NEC TOKIN enhances our competitive position.

Discontinued Operations

The Film and Electrolytic Business group completed the sale of its Machinery division in April, 2014, which resulted in a \$7.4 million net gain on sale of the business (after income tax expense) offset by a loss from machinery operations of \$0.4 million during the first quarter of fiscal year 2015 resulting in a net gain on discontinued operations of \$6.9 million.

Restructuring

The Company incurred \$1.8 million in restructuring charges in the three month period ended June 30, 2014 including \$0.1 million related to personnel reduction costs related to the Company's initiative to reduce overhead and also manufacturing relocation costs of \$1.7 million due primarily to the shut-down of the Tantalum production line in Evora, Portugal.

Outlook

For the second quarter of fiscal year 2015, we expect net sales to be within the \$206 million to \$212 million range and Adjusted gross margin to improve by 100 to 200 basis points.

CONDENSED CONSOLIDATED RESULTS OF OPERATIONS

Net Sales

Net sales for the quarter ended June 30, 2014 of \$212.9 million increased \$10.8 million or 5.4% from \$202.1 million for the quarter ended June 30, 2013. The increase is due primarily to an increase in Solid Capacitors of \$10.4 million driven by an increase in sales in the Americas from the OEM and Distributor channels. Overall sales of the Company showed a 4.4% increase in unit sales volumes for the quarter ended June 30, 2014 compared to the quarter ended June 30, 2013 and net sales were favorably impacted by \$2.6 million from foreign exchange primarily due to the change in the value of the Euro compared to the U.S. dollar. These increases were partially offset by a decrease in average selling prices of 0.9% due primarily to an 18.1% decrease in Film & Electrolytic.

The following table reflects the percentage of net sales by region for the quarters ended June 30, 2014 and 2013:

	Quarters Ended June 30,	
	2014	2013
Americas	31 %	29 %
EMEA	36 %	36 %

	100 %	100 %

The following table reflects the percentage of net sales by channel for the quarters ended June 30, 2014 and 2013:

	Quarters Ended June 30,	
	2014	2013
Distributors	47 %	46 %
EMS	16 %	16 %
OEM	37 %	38 %
	100 %	100 %

Gross Margin

Gross margin for the quarter ended June 30, 2014 of \$33.0 million (15.5% of net sales) increased \$14.4 million or 77.7% from \$18.5 million (9.2% of net sales) for the quarter ended June 30, 2013. The primary contributor to the increase in gross margin as a percentage of net sales was an improvement in the gross margin for Solid Capacitors due to an increase in specialty product sales, continued vertical integration activities, and the restructuring of the Evora, Portugal plant.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses of \$24.8 million (11.6% of net sales) for the quarter ended June 30, 2014 decreased \$1.3 million or 5.0% from \$26.1 million (12.9% of net sales) for the quarter ended June 30, 2013. The decrease is attributable primarily to the following items: a \$0.7 million decrease in fees related to our investment in NEC TOKIN, a \$0.5 million decrease in depreciation expense, and a \$0.3 million decrease in training and travel expenses as part of overall cost saving initiatives. Partially offsetting these decreases was a \$0.4 million increase in Information Technology expenses related to leased equipment and software maintenance.

Research and Development

Research and Development ("R&D") expenses of \$6.6 million (3.1% of net sales) for the quarter ended June 30, 2014 increased \$0.5 million or 8.6% compared to \$6.1 million (3.0% of net sales) for the quarter ended June 30, 2013 primarily as a result of headcount increases and engineering activities related to new product introduction.

Restructuring Charges

Restructuring charges of \$1.8 million for the quarter ended June 30, 2014 decreased \$2.8 million or 60.3% from \$4.6 million for the quarter ended June 30, 2013.

Restructuring charges in the quarter ended June 30, 2014 included \$0.1 million of personnel reduction costs to reduce overhead in Europe and \$1.7 million of manufacturing relocation costs primarily due to the shut-down of the Tantalum production line in Evora, Portugal

Restructuring charges in the quarter ended June 30, 2013 included \$4.1 million related to personnel reduction costs which is primarily comprised of the following: \$1.9 million related to the closure of a portion of our innovation center in the U.S., \$1.1 million related to the reduction of the solid capacitor production workforce in Mexico, \$0.7 million related to the Company's initiative to reduce overhead, and \$0.4 million related to a Cassia Integrazione Guadagni Straordinaria ("CIGS") plan implemented in Italy which will cover a maximum of 170 employees for up to 12 months. In addition to these personnel reduction costs, the Company incurred manufacturing relocation costs of \$0.5 million in the quarter ended June 30, 2013 due to the consolidation of manufacturing facilities within Italy and relocation of manufacturing equipment to Evora, Portugal.

Operating Loss

The operating loss of \$0.6 million for the quarter ended June 30, 2014 improved \$17.6 million from an operating loss of \$18.2 million for the quarter ended June 30, 2013. The improvement was attributable primarily to a \$14.4 million increase in gross margin, a \$2.8 million decrease in Restructuring charges, and a \$1.3 million decrease in SG&A expenses. These improvements were partially offset by a \$0.5 million increase in R&D expenses.

Non-Operating (Income) Expense, net

Non-operating (income) expense, net was an expense of \$6.9 million for the quarter ended June 30, 2014, compared to an expense of \$10.2 million for the quarter ended June 30, 2013. During the quarter ended June 30, 2014, we recognized a \$0.5 million foreign currency exchange loss compared to a \$0.6 million gain on foreign currency exchange for the quarter ended June 30, 2013 primarily due to the change in the value of the Euro and Mexican Peso compared to the U.S. dollar. Interest expense for the first quarter of fiscal year 2015 increased \$0.7 million compared to the first quarter of fiscal year 2014 due primarily to a decrease in capitalized interest first quarter of fiscal year 2015 as compared to the first quarter of fiscal year 2014. During the quarter ended June 30, 2013, we recognized a \$1.4 million charge related to the write off of a long-term note receivable. In addition, in the quarter ended June 30, 2014, we recognized a \$4.1 million increase in the value of the NEC TOKIN options.

Income Taxes

Income tax expense of \$1.3 million for the quarter ended June 30, 2014 decreased \$0.5 million compared to income tax expense of \$1.8 million for the quarter ended June 30, 2013. During the quarter ended June 30, 2014, the income tax expense was comprised of a \$1.3 million charge related to income taxes for continuing foreign operations. During the quarter ended June 30, 2013, the Company incurred \$1.8 million of income tax expense which was comprised of \$1.7 million related to income taxes for foreign operations and \$0.1 million of state income tax expense.

There was no U.S. federal income tax benefit for the quarters ended June 30, 2014 and 2013 due to a valuation allowance recorded on deferred tax assets.

Equity loss from NEC TOKIN

Equity loss related to NEC TOKIN of \$1.7 million for the quarter ended June 30, 2014 improved \$1.7 million compared to an Equity loss of \$3.4 million for the quarter ended June 30, 2013.

Discontinued operations

Income from discontinued operations of \$6.9 million for the quarter ended June 30, 2014, improved \$8.5 million compared to a loss of \$1.5 million for the quarter ended June 30, 2013. The improvement is the result of the sale of the Machinery division in April, 2014, which resulted in a \$7.4 million net gain on sale of the business (after income tax expense) offset by a loss from machinery operations of \$0.4 million during the first quarter of fiscal year 2015.

Business Groups Comparison of the Quarter Ended June 30, 2014 with the Quarter Ended June 30, 2013

The following table reflects each business group's net sales and operating income (loss), for the quarters ended June 30, 2014 and 2013 (amounts in thousands):

	Quarters Ended June 30,	
	2014	2013
Net sales:		
Solid Capacitors	\$ 159,790	\$ 149,401
Film and Electrolytic	53,091	52,656
Total	\$ 212,881	\$ 202,057
Operating income (loss):		
Solid Capacitors	\$ 29,734	\$ 12,792
Film and Electrolytic	(6,047)	(6,302)
Unallocated operating expenses	(24,293)	(24,702)
Total	\$ (606)	\$ (18,212)

Solid Capacitors

The following table sets forth net sales, Operating income, and Operating income as a percentage of net sales for our Solid Capacitors business group for the quarters ended June 30, 2014 and 2013 (amounts in thousands, except percentages):

	Quarters Ended June 30,			
	2014		2013	
	Amount	% to Net Sales	Amount	% to Net Sales
Tantalum product line net sales	\$ 97,943		\$ 94,139	
Ceramic product line net sales	61,847		55,262	
Solid Capacitors net sales	159,790		149,401	
Solid Capacitors operating income	29,734	18.6%	12,792	8.6%

Net Sales

Solid Capacitors net sales of \$159.8 million for the quarter ended June 30, 2014 increased \$10.4 million or 7.0% from \$149.4 million for the quarter ended June 30, 2013 primarily as a result of increased sales within the Ceramic product line.

The Ceramic product line ("Ceramic") net sales of \$61.8 million for the quarter ended June 30, 2014 increased \$6.6 million or 11.9% from \$55.3 million for the quarter ended June 30, 2013, driven by an increase in the OEM and distributor channels' net sales mainly within the Americas region. Tantalum product line net sales of \$97.9 million for the quarter ended June 30, 2014 increased \$3.8 million or 4.0% from \$94.1 million for the quarter ended June 30, 2013, driven by an increase in the Americas region. In addition, average selling prices for Solid Capacitors increased 2.0% due to an increase in specialty product sales.

Segment Operating Income

Segment operating income of \$29.7 million for the quarter ended June 30, 2014 increased \$16.9 million or 132.4% from \$12.8 million in the quarter ended June 30, 2013 primarily as a result of a \$14.8 million increase in gross margin and \$2.3 million decrease in operating expenses (Restructuring, SG&A and R&D). Restructuring charges decreased \$1.8 million as the prior year quarter ended June 30, 2013 included reductions in workforce in response to lower unit sales volume and demand. SG&A expense decreased \$0.7 million due to a decrease in compensation related to headcount reductions and integration costs and R&D expense increased \$0.2 million. The increase in gross margin was driven by an increase in specialty product sales, continued vertical integration activities, and the restructuring of the Evora, Portugal plant.

Film and Electrolytic

The following table sets forth net sales, Operating loss and Operating loss as a percentage of net sales for our Film and Electrolytic business group for the quarters ended June 30, 2014 and 2013 (amounts in thousands, except percentages):

	Quarters Ended June 30,			
	2014		2013	
	Amount	% to Net Sales	Amount	% to Net Sales
Net sales	\$ 53,091		\$ 52,656	
Operating loss	(6,047)	(11.4)%	(6,302)	(12.0)%

Net Sales

Film and Electrolytic net sales of \$53.1 million for the quarter ended June 30, 2014 increased \$0.4 million or 0.8% from \$52.7 million for the quarter ended June 30, 2013. The increase in net sales was driven by a 16.6% increase in unit sales volumes driven by higher customer demand in Europe partially offset by a decline in average selling prices of 18.1% due to pricing pressure and an increase in unit sales volume for products with lower average selling prices. The Film and Electrolytic capacitor net sales were favorably impacted by \$2.6 million from foreign exchange primarily due to the change in the value of the Euro compared to the U.S. dollar.

Segment Operating Loss

Segment Operating loss of \$6.0 million for the quarter ended June 30, 2014 improved \$0.3 million or 4.0% from \$6.3 million in the quarter ended June 30, 2013. The improvement in segment operating loss was primarily attributable to a \$0.9 million decrease in restructuring charges and a \$0.2 million decrease in SG&A. The improvements were partially offset by a \$0.4 million decrease in gross margin, a \$0.3 million increase in R&D and a \$0.3 million loss on disposal of assets.

Liquidity and Capital Resources

Our liquidity needs arise from working capital requirements, capital expenditures, acquisitions, principal and interest payments on debt, and costs associated with the implementation of our restructuring plans. Historically, our cash needs have been met by cash flows from operations, borrowings under our loan agreements and existing cash balances.

Issuance of 10.5% Senior Notes

On May 5, 2010, we completed a private placement of \$230.0 million in aggregate principal amount of our 10.5% Senior Notes due 2018 (the "10.5% Senior Notes"). On March 27, 2012 and April 3, 2012, we completed the sale of \$110.0 million and \$15.0 million aggregate principal amount of 10.5% Senior Notes, respectively, at an issue price of 105.5% of the principal amount plus accrued interest from November 5, 2011. The 10.5% Senior Notes were issued as additional notes under the indenture, dated May 5, 2010, among the Company, the guarantors party thereto and Wilmington Trust Company, as trustee.

Revolving Line of Credit

On September 30, 2010, KEMET Electronics Corporation ("KEC") and KEMET Electronics Marketing (S) Pte Ltd. ("KEMET Singapore") (each a "Borrower" and, collectively, the "Borrowers") entered into a Loan and Security Agreement (the "Loan and Security Agreement"), with Bank of America, N.A. as the administrative agent and the initial lender. The Loan and Security Agreement provides a \$50 million revolving line of credit, which is bifurcated into a U.S. facility (for which KEC is the Borrower) and a Singapore facility (for which KEMET Singapore is the Borrower). The size of the U.S. facility and Singapore facility can fluctuate as long as the Singapore facility does not exceed \$30 million and the total facility does not exceed \$50 million. Pursuant to an amendment to the Loan and Security Agreement entered into on April 30, 2014, the facilities expire on December 31, 2015. A portion of the U.S. facility and of the Singapore facility can be used to issue letters of credit. One letter of credit totaling \$16.0 million was issued under the Loan and Security Agreement as of June 30, 2014. There was \$25.9 million in borrowings against the Loan and Security Agreement as of June 30, 2014. As of June 30, 2014 our borrowing capacity under Loan and Security Agreement was \$0.6 million.

Advanced Payment from OEM

On August 28, 2012, we entered into and amended an agreement (the “Agreement”) with an OEM, pursuant to which the OEM agreed to advance KEMET \$24.0 million (the “Advance Payment”). On October 22, 2012 we received the Advance Payment from the OEM. As of June 30, 2014 and March 31, 2014, the Company had \$19.5 million and \$20.4 million, respectively, outstanding to the OEM. On a monthly basis starting in June 2013, the Company began repaying the OEM an amount equal to a percentage of the aggregate purchase price of the capacitors sold to the OEM the preceding month, not to exceed \$1.0 million per month. Pursuant to the terms of the Agreement, the percentage of the aggregate purchase price of capacitors sold to the OEM used to repay the Advance Payment will double, and the total amount to be repaid will not exceed \$2.0 million per month, in the event that (1) the OEM provides evidence that the price charged by KEMET for a particular capacitor during any prior quarter was equal to or greater than 110% of the price paid by the OEM or its affiliates for a third-party part qualified for the same product, and shipping in volume during such period; and, (2) agreement cannot be reached between the OEM and KEMET for a price adjustment during the current quarter which would bring our price within 110% of the third-party price. In June 2015, the remaining outstanding balance, if any, is due in full. Pursuant to the terms of the Agreement, we delivered to the OEM an irrevocable standby letter of credit in the amount of \$16.0 million on October 8, 2012 which reduced our availability under the Loan and Security Agreement.

The OEM may demand repayment of the entire balance outstanding or draw upon the Letter of Credit if any of the following events occur while the Agreement is still in effect: (i) the Company commits a material breach of the Agreement, the statement of work or the master purchase agreement between the OEM and the Company; (ii) the Company’s credit rating issued by Standard & Poor’s Financial Services LLC or its successor or Moody’s Investors Services, Inc. or its successors drops below CCC+ or Caa1, respectively; (iii) the Company’s cash balance on the last day of any fiscal quarter is less than \$60.0 million; (iv) the Letter of Credit has been terminated without being replaced prior to repayment of the Advance Payment amount; (v) the Company or substantially all of its assets are sold to a party other than a subsidiary of the Company; (vi) all or substantially all of the assets of a subsidiary of the Company, or any of the shares of such subsidiary, are sold, whose assets are used to develop and produce the Goods; (vii) the Company or any subsidiary which accounts for 20% or more of the Company’s consolidated total assets (“Company Entity”) applies for judicial or extra judicial settlement with its creditors, makes an assignment for the benefit of its creditors, voluntarily files for bankruptcy or has a receiver or trustee in bankruptcy appointed by reason of its insolvency, or in the event of an involuntary bankruptcy action, liquidation proceeding, dissolution or similar proceeding is filed against a Company Entity and not dismissed within sixty (60) days. We believe none of these triggers have been met including maintaining a minimum cash balance since our cash balance including restricted cash exceeds the \$60.0 million threshold.

Short-term Liquidity

KEMET’s total cash and restricted cash balance as of June 30, 2014 was \$71.6 million. Unrestricted cash and cash equivalents as of June 30, 2014, of \$58.4 million increased \$0.5 million from \$57.9 million as of March 31, 2014. Our net working capital (current assets less current liabilities) as of June 30, 2014, was \$214.9 million compared to \$233.7 million as of March 31, 2014. Cash and cash equivalents held by our foreign subsidiaries totaled \$30.6 million and \$35.1 million at June 30, 2014, and March 31, 2014, respectively. Our operating income outside the U.S. is deemed to be permanently reinvested in foreign jurisdictions. As a result, we currently do not intend nor foresee a need to repatriate cash and cash equivalents held by foreign subsidiaries. If these funds are needed for our operations in the U.S., we may be required to accrue U.S. taxes on the undistributed foreign earnings.

We have taken steps to improve our operating results by decreasing global headcount and vertically integrating our supply chain. Based on our current operating plans, we believe that domestic cash and cash equivalents will continue to be sufficient to fund our operating requirements for the next twelve months, including \$38.7 million in interest payments, \$20.0 million to \$25.0 million in expected capital expenditures, \$19.5 million related to the Advance Payment discussed above, \$18.3 million in deferred acquisition payments, \$3.4 million in restructuring payments, and \$0.6 million in debt principal payments. As of June 30, 2014, our borrowing capacity under the revolving line of credit was \$0.6 million. The revolving line of credit expires on December 31, 2015.

Should we require more capital than is generated by our operations or available through our revolving line of credit, we believe we could raise capital through debt issuances or the sale of certain non-core assets. However, due to market conditions beyond our control, there can be no assurance that we would be able to complete such an offering. The incurrence of additional debt may result in increased interest expense.

Cash and cash equivalents increased \$0.5 million for the quarter ended June 30, 2014, as compared with a decrease of \$42.8 million during the quarter ended June 30, 2013.

The following table provides a summary of cash flows for the quarters presented (amounts in thousands):

	Quarters Ended June 30,	
	2014	2013
Net cash used in operating activities	\$ (12,145)	\$ (27,631)
Net cash provided by (used in) investing activities	7,691	(13,890)
Net cash provided by (used in) financing activities	5,010	(1,491)
Effect of foreign currency fluctuations on cash	(63)	189
Net increase (decrease) in cash and cash equivalents	\$ 493	\$ (42,823)

Operations

Cash used in operating activities in the quarter ended June 30, 2014 of \$12.1 million decreased \$15.5 million from \$27.6 million used in the quarter ended June 30, 2013.

During the quarter ended June 30, 2014 the cash used in operating activities of \$12.1 million is primarily comprised of \$6.9 million used for operating assets, primarily due to a \$1.9 million increase in inventories and an increase in value added tax receivable, prepaid software, and prepaid inventory of \$5.1 million. In addition, we used \$3.0 million in cash for operating liabilities, comprised of a \$9.3 million decrease in the interest accrual balance, which was partially offset by a \$6.1 million increase in accounts payable.

In comparison, during the quarter ended June 30, 2013, the cash used in operating activities of \$27.6 million was primarily comprised of \$12.1 million in operating assets primarily related to an increase in inventories. In addition, we used \$2.6 million in cash for operating liabilities primarily due to an \$11.0 million decrease in accounts payable related to lower production levels and vertical integration, a \$9.3 million decrease in the interest accrual balance, and a \$8.0 million decrease in salary and vacation accruals due to headcount reductions.

Investing

Cash provided by investing activities in the quarter ended June 30, 2014 of \$7.7 million increased \$21.6 million from cash used of \$13.9 million in the quarter ended June 30, 2013, due primarily to a decrease in capital expenditures and cash received from the sale of discontinued operations.

During the quarter ended June 30, 2014, capital expenditures of \$5.2 million were primarily related to capacity increases at our manufacturing facilities in Simpsonville, South Carolina and Granna, Sweden, as well as completion of our manufacturing facility in Pontecchio, Italy. In addition the Company received \$10.1 million for the sale of discontinued operations and restricted cash related to the Advance Payment provided cash of \$0.3 million.

In comparison, during the quarter ended June 30, 2013, capital expenditures of \$15.5 million were primarily related to our manufacturing facility in Skopje, Macedonia and our Tantalum K-Salt facility in Matamoros, Mexico. Restricted cash related to the Advance Payment provided cash of \$1.6 million.

In addition, in the quarter ended June 30, 2014 we received proceeds of \$10.1 million related to the sale of the machinery division.

Financing

Cash provided by financing activities in the quarter ended June 30, 2014, of \$5.0 million increased \$6.5 million from usage of \$1.5 million in the quarter ended June 30, 2013, due primarily to an increase in borrowings.

During the quarter ended June 30, 2014, KEMET received \$7.5 million in proceeds under the Loan and Security Agreement while making \$2.2 million in debt payments and spending \$0.3 million for deferred acquisition payments related to the KEMET Foil and KEMET Blue Powder Corporation acquisitions.

Comparatively, during the quarter ended June 30, 2013, the Company made deferred acquisition payments of \$1.2 million related to the KEMET Foil and KEMET Blue Powder Corporation acquisitions and \$0.3 million for debt payments.

Commitments

Our commitments have not changed materially from those disclosed in the Company's 2014 Annual Report.

Non-U.S. GAAP Financial Measures

To complement our Condensed Consolidated Statements of Operations and Cash Flows, we use non-U.S. GAAP financial measures of Adjusted operating income (loss), Adjusted net loss and Adjusted EBITDA. Management believes that Adjusted operating income (loss), Adjusted net loss and Adjusted EBITDA are complements to U.S. GAAP amounts and such measures are useful to investors. The presentation of these non-U.S. GAAP measures is not meant to be considered in isolation or as an alternative to net income as an indicator of our performance, or as an alternative to cash flows from operating activities as a measure of liquidity.

Adjusted operating income (loss) is calculated as follows (amounts in thousands):

Adjusted operating loss represents operating income, excluding adjustments which are outlined in the quantitative reconciliation provided above. We use Adjusted operating loss to facilitate our analysis and understanding of our business operations and believe that Adjusted operating loss is useful to investors because it provides a supplemental way to understand our underlying operating performance. Adjusted operating loss should not be considered as an alternative to operating income or any other performance measure derived in accordance with U.S. GAAP.

Adjusted net income (loss) from continuing operations represents net loss from continuing operations, excluding adjustments which are more specifically outlined in the quantitative reconciliation provided above. We use Adjusted net income (loss) from continuing operations to evaluate our operating performance and believe that Adjusted net income (loss) from continuing operations is useful to investors because it provides a supplemental way to understand our underlying operating performance. Adjusted net income (loss) from continuing operations should not be considered as an alternative to net loss from continuing operations, operating income (loss) or any other performance measures derived in accordance with U.S. GAAP.

Adjusted EBITDA represents net loss before interest expense, net, income tax expense, and depreciation and amortization expense, excluding adjustments which are outlined in the quantitative reconciliation provided above. We present Adjusted EBITDA from continuing operations as a supplemental measure of our performance and ability to service debt. We also present Adjusted EBITDA from continuing operations because we believe such measure is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry.

We believe Adjusted EBITDA from continuing operations is an appropriate supplemental measure of debt service capacity, because cash expenditures on interest are, by definition, available to pay interest, and tax expense is inversely correlated to interest expense because tax expense goes down as deductible interest expense goes up; and depreciation and amortization are non-cash charges. The other items excluded from Adjusted EBITDA from continuing operations are excluded in order to better reflect our continuing operations.

In evaluating Adjusted EBITDA from continuing operations, you should be aware that in the future we may incur expenses similar to the adjustments noted above. Our presentation of Adjusted EBITDA from continuing operations should not be construed as an inference that our future results will be unaffected by these types of adjustments. Adjusted EBITDA from

continuing operations is not a measurement of our financial performance under U.S. GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with U.S. GAAP or as an alternative to cash flow from operating activities as a measure of our liquidity.

Our Adjusted EBITDA from continuing operations measure has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Some of these limitations are:

- it does not reflect our cash expenditures, future requirements for capital expenditures or contractual commitments;
- it does not reflect changes in, or cash requirements for, our working capital needs;
- it does not reflect the significant interest expense or the cash requirements necessary to service interest or principal payments on our debt;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and our Adjusted EBITDA from continuing operations measure does not reflect any cash requirements for such replacements;
- it is not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows;
- it does not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations;
- it does not reflect limitations on or costs related to transferring earnings from our subsidiaries to us; and
- other companies in our industry may calculate this measure differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA from continuing operations should not be considered as a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. You should compensate for these limitations by relying primarily on our U.S. GAAP results and using Adjusted EBITDA from continuing operations only supplementally.

Off-Balance Sheet Arrangements

Other than operating lease commitments, we are not a party to any material off-balance sheet financing arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

Impact of Recently Issued Accounting Standards

New accounting standards adopted

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers, which supersedes existing accounting standards for revenue recognition and creates a single framework. The new guidance is effective for the Company's fiscal year that begins on April 1, 2017 and interim periods within that fiscal year and requires either a retrospective or a modified retrospective approach to adoption. The Company is currently evaluating the potential impact on its Consolidated Financial Statements and related disclosures, as well as the available transition methods. Early application is prohibited.

There are currently no other accounting standards that have been issued that will have a significant impact on the Company's financial position, results of operations or cash flows upon adoption.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material changes regarding the Company's market risk position from the information included in the Company's 2014 Annual Report.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of June 30, 2014, an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in its reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There has been no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended June 30, 2014 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

We or our subsidiaries are at any one time parties to a number of lawsuits arising out of their respective operations, including, but not limited to, workers' compensation or work place safety cases and antitrust lawsuits, some of which involve claims of substantial damages. Although there can be no assurance, based upon information known to us, we do not believe that any liability which might result from an adverse determination of such lawsuits would have a material adverse effect on our financial condition or results of operations.

On July 18, 2014, a purported antitrust class action complaint (the "Chip-Tech Complaint"), *Chip-Tech, Ltd., v. Panasonic Corporation, et. al.*, was filed in the United States District Court, Northern District of California. On July 22, 2014, a second purported antitrust class action complaint (the "Dependable Component Complaint" and, together with the Chip-Tech Complaint, the "Complaints"), *Dependable Component Supply Corp. v. Panasonic Corporation, et. al.*, was also filed in the United States District Court, Northern District of California by the same law firm that filed the Chip-Tech Complaint. KEMET Corporation and KEMET Electronics Corporation were named as defendants, along with 26 other capacitor manufacturers in both Complaints. The Complaints allege collusion and restraint of trade by the defendants in violation of Section 1 of the Sherman Act. The Company has not recorded an accrual concerning these Complaints.

Item 1A. Risk Factors

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A Risk Factors, of the Company's 2014 Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information
