**Notes to Condensed Consolidated Financial Statements
(Unaudited)**

Note 1. Basis of Financial Statement Presentation

The condensed consolidated financial statements contained herein are unaudited and have been prepared from the books and records of KEMET Corporation and its subsidiaries ("KEMET" or the "Company"). In the opinion of management, the condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods. The condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q, and therefore, do not include all information and footnotes necessary for a complete presentation of financial position, results of operations, and cash flows in conformity with U.S. generally accepted accounting principles ("U.S. GAAP"). Although the Company believes the disclosures are adequate to make the information presented not misleading, it is suggested that these condensed consolidated financial statements be read in conjunction with the audited financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended March 31, 2015 (the "Company's 2015 Annual Report").

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. In consolidation, all significant intercompany amounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation. Net sales and operating results for the quarter ended June 30, 2015 are not necessarily indicative of the results to be expected for the full year.

The Company's significant accounting policies are presented in the Company's 2015 Annual Report.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, assumptions, and judgments based on historical data and other assumptions that management believes are reasonable. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of revenues and expenses during the reporting period.

The Company's judgments are based on management's assessment as to the effect certain estimates, assumptions, or future trends or events may have on the financial condition and results of operations reported in the unaudited condensed consolidated financial statements. It is important that readers of these unaudited financial statements understand that actual results could differ from these estimates, assumptions, and judgments.

Recently Issued Accounting Pronouncements

New accounting standards adopted/issued

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The ASU specifies that debt issuance costs related to a note shall be reported in the balance sheet as a direct reduction from the face amount of the note. The ASU is effective for the Company for interim and annual periods beginning after April 1, 2016. Early adoption is permitted. The ASU will require the Company to reclassify its capitalized debt issuance costs currently recorded as assets on the consolidated condensed balance sheets. The ASU will have no effect on the Company's results of operations or liquidity.

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU")2014-15, Presentation of Financial Statements-Going Concern. The new guidance is effective for the Company's fiscal year that begins on April 1, 2017 and interim periods within that fiscal year and requires management to assess if there is substantial doubt about an entity's ability to continue as a going concern for each annual and interim period. If conditions or events give rise to substantial doubt, disclosures are required. This new guidance is not expected to have a material impact on the Company's Consolidated Financial Statements.

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU")2014-09, Revenue from Contracts with Customers, which supersedes existing accounting standards for revenue recognition and creates a single framework. The new guidance is effective for the Company's fiscal year that begins on April 1, 2018 and interim periods within that fiscal year and requires either a retrospective or a modified retrospective approach to adoption. The Company is currently evaluating the potential impact on its Consolidated Financial Statements and related disclosures, as well

as the available transition methods. Early adoption is permitted, but not before Company's fiscal year that begins on April 1, 2017 (the original effective date of the ASU). We are currently in the process of assessing the impact the adoption of this guidance will have on our consolidated financial statements.

There are currently no other accounting standards that have been issued that will have a significant impact on the Company's financial position, results of operations or cash flows upon adoption.

Restricted Cash

A bank guarantee in the amount of €1.5 million (\$1.7 million) was issued by a European bank on behalf of the Company in August 2006 in conjunction with the establishment of a Value-Added Tax ("VAT") registration in The Netherlands. Accordingly, a deposit was placed with the European bank for €1.7 million (\$1.8 million). While the deposit is in KEMET's name, and KEMET receives all interest earned by this deposit, the deposit is pledged to the European bank, and the bank can use the funds if a valid claim against the bank guarantee is made. The bank guarantee will remain valid until it is discharged by the beneficiary.

Fair Value Measurement

The Company utilizes three levels of inputs to measure the fair value of (a) nonfinancial assets and liabilities that are recognized or disclosed at fair value in the Company's consolidated financial statements on a recurring basis (at least annually) and (b) all financial assets and liabilities. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

The first two inputs are considered observable and the last is considered unobservable. The levels of inputs are as follows:

- Level 1—Quoted prices in active markets for identical assets or liabilities.
- Level 2—Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets and liabilities measured at fair value on a recurring basis as of June 30, 2015 and March 31, 2015 are as follows (amounts in thousands):

	Carrying Value		Fair Value Measurement Using			Carrying Value		Fair Value Measurement Using		
	June 30, 2015	Fair Value June 30, 2015	Level 1	Level 2 (2)	Level 3	March 31, 2015	Fair Value March 31, 2015	Level 1	Level 2 (2)	Level 3

NEC TOKIN options, net (3)	(23,500)	(23,500)	—	—	(23,500)	5,700	5,700	—	—	5,700

(1) Included in the line item "Cash and cash equivalents" on the Condensed Consolidated Balance Sheets.
 (2) The valuation approach used to calculate fair value was a discounted cash flow based on the borrowing rate for each respective debt facility.
 (3) See Note 6, Investment in NEC TOKIN, for a description of the NEC TOKIN options. The value of the options is interrelated and depends on the enterprise value of NEC TOKIN Corporation and its forecasted EBITDA over the duration of the instruments. The options have been valued using option pricing methods in a Monte Carlo simulation.

Warrant

As of June 30, 2015 and March 31, 2015, 8.4 million shares were subject to the warrant (which expires June 30, 2019) held by K Equity, LLC.

Revenue Recognition

The Company ships products to customers based upon firm orders and revenue is recognized when the sales process is complete. This occurs when products are shipped to the customer in accordance with the terms of an agreement of sale, there is a fixed or determinable selling price, title and risk of loss have been transferred and collectability is reasonably assured. Shipping and handling costs are included in cost of sales.

A portion of sales is related to products designed to meet customer specific requirements. These products typically have stricter tolerances making them useful to the specific customer requesting the product and to customers with similar or less stringent requirements. The Company recognizes revenue when title to the products transfers to the customer.

A portion of sales is made to distributors under agreements allowing certain rights of return and price protection on unsold merchandise held by distributors. The Company's distributor policy includes inventory price protection and "ship-from-stock and debit" ("SFSD") programs common in the industry.

KEMET's SFSD program provides authorized distributors with the flexibility to meet marketplace prices by allowing them, upon a pre-approved case-by-case basis, to adjust their purchased inventory cost to correspond with current market demand. Requests for SFSD adjustments are considered on an individual basis, require a pre-approved cost adjustment quote from their local KEMET sales representative and apply only to a specific customer, part, specified special price amount, specified quantity, and are only valid for a specific period of time. To estimate potential SFSD adjustments corresponding with current period sales, KEMET records a sales reserve based on historical SFSD credits, distributor inventory levels, and certain accounting assumptions, all of which are reviewed quarterly.

Most of the Company's distributors have the right to return to KEMET a certain portion of the purchased inventory, which, in general, does not exceed 6% of their purchases from the previous fiscal quarter. KEMET estimates future returns based on historical return patterns and records a corresponding allowance on the Condensed Consolidated Balance Sheets. The Company also offers volume based rebates on a case-by-case basis to certain customers in each of the Company's sales channels.

The establishment of sales allowances is recognized as a component of the line item "Net sales" on the Condensed Consolidated Statements of Operations, while the associated reserves are included in the line item "Accounts receivable, net" on the Condensed Consolidated Balance Sheets. Estimates used in determining sales allowances are subject to various factors. This includes, but is not limited to, changes in economic conditions, pricing changes, product demand, inventory levels in the supply chain, the effects of technological change, and other variables that might result in changes to the Company's estimates.

[Table of Contents](#)

The Company provides a limited warranty to customers that the Company's products meet certain specifications. The warranty period is generally limited to one year, and the Company's liability under the warranty is generally limited to a replacement of the product or refund of the purchase price of the product. Warranty costs as a percentage of net sales were less than 1.0% for the quarters ended June 30, 2015 and 2014. The Company recognizes warranty costs when they are both probable and reasonably estimable.

Note 2. Discontinued Operations

The Film and Electrolytic business group ("Film and Electrolytic") completed the sale of its machinery division in April 2014, which resulted in a gain of \$7.4 million on the sale of the business (after income tax expense) offset by a loss from machinery operations of \$0.4 million during the three month period ended June 30, 2014 resulting in net income from discontinued operations of \$6.9 million.

Net sales and operating income (loss) from the Company's discontinued operation for the quarters ended June 30, 2015 and 2014 were (amounts in thousands):

	Quarters Ended June 30,	
	2015	2014

Ltd., KEMET Foil Manufacturing, LLC (“KEMET Foil”), KEMET Blue Powder Corporation (“KEMET Blue Powder”), The Forest Electric Company and the financial institutions party thereto (the “Loan and Security Agreement”).

(2) For Singapore borrowings, London Interbank Offer Rate ("LIBOR"), plus a spread of 2.75%.

(3) The Company has the intent and ability to extend the due date on the Singapore borrowings beyond one year.

These were the only borrowings under the revolving line of credit, and as of June 30, 2015, the Company's available borrowing capacity under the Loan and Security Agreement was \$7.2 million.

10.5% Senior Notes

As of June 30, 2015 and March 31, 2015, the Company had outstanding \$355.0 million in aggregate principal amount of the Company's 10.5% Senior Notes due May 1, 2018 (the “10.5% Senior Notes”). The Company had interest payable related to the 10.5% Senior Notes included in the line item “Accrued expenses” on its Condensed Consolidated balance sheets of \$6.2 million and \$15.5 million as of June 30, 2015 and March 31, 2015, respectively.

Note 4. Restructuring Charges

The Company is in the process of various restructuring plans to make the Company more competitive by removing excess capacity, relocating production to lower cost locations, and eliminating unnecessary costs throughout the Company.

A summary of the expenses aggregated in the Condensed Consolidated Statements of Operations line item “Restructuring charges” in the quarters ended June 30, 2015 and 2014, is as follows (amounts in thousands):

	Quarters Ended June 30,	
	2015	2014
Manufacturing relocation costs	\$ 280	\$ 1,684
Personnel reduction costs	1,544	146
Total restructuring charges	\$ 1,824	\$ 1,830

Quarter Ended June 30, 2015

The Company incurred \$1.8 million in restructuring charges in the quarter ended June 30, 2015 including \$1.5 million of personnel reduction costs due to the following: \$0.6 million related a headcount reduction in Suzhou, China for the Film & Electrolytic production line transfer from Suzhou, China to Anting, China, \$0.5 million for planned headcount reductions in Europe (primarily Landsberg, Germany), \$0.2 million for headcount reductions in Matamoros, Mexico related to the relocation of certain Solid Capacitor manufacturing from Matamoros, Mexico to Victoria, Mexico, and \$0.2 million for headcount reductions related to the outsourcing of the Company's information technology function and overhead reductions in North

America and Europe. The Company also incurred \$0.3 million of manufacturing relocation costs for transfers of Film and Electrolytic production lines.

Quarter Ended June 30, 2014

The Company incurred \$1.8 million in restructuring charges in the quarter ended June 30, 2014 including \$1.7 million of manufacturing relocation costs primarily due to the shut-down of the Solid Capacitor production line in Evora, Portugal and \$0.1 million of personnel reduction costs due to a reduction in overhead in Europe.

Reconciliation of restructuring liability

A reconciliation of the beginning and ending liability balances for restructuring charges included in the line items "Accrued expenses" and "Other non-current obligations" on the Condensed Consolidated Balance Sheets for the quarters ended June 30, 2015 and 2014 are as follows (amounts in thousands):

Balance at June 30, 2014	\$ 22,235	\$ (7,326)	\$ 1,412	\$ 1,262	\$ —	\$ 17,583

- (1) Due primarily to the Company's valuation allowance on deferred tax assets, there were no significant deferred tax effects associated with the cumulative currency translation gains and losses during the quarter ended June 30, 2015.
- (2) Ending balance is net of tax of \$2.3 million and \$2.2 million as of June 30, 2015 and June 30, 2014, respectively.
- (3) Due primarily to the Company's permanent re-investment assertion relating to foreign earnings, there were no significant deferred tax effects associated with the cumulative currency translation gains and losses during the quarter ended June 30, 2014.

Note 6. Investment in NEC TOKIN

On March 12, 2012, KEC, a wholly owned subsidiary of the Company, entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") with NEC TOKIN Corporation ("NEC TOKIN"), a manufacturer of tantalum capacitors, electro-magnetic, electro-mechanical and access devices, to acquire 51% of the common stock of NEC TOKIN (which represented a 34% economic interest, as calculated based on the number of common shares held by KEC, directly and indirectly, in proportion to the aggregate number of outstanding common and preferred shares of NEC TOKIN as of such date) (the "Initial Purchase") from NEC Corporation ("NEC") of Japan. The transaction closed on February 1, 2013, at which time KEC paid a purchase price of \$50.0 million for new shares of common stock of NEC TOKIN (the "Initial Closing"). The Company accounts for its investment in NEC TOKIN using the equity method for a non-consolidated variable interest entity since KEC does not have the power to direct significant activities of NEC TOKIN. The Company believes that the NEC TOKIN preferred stock represents in-substance common stock of NEC TOKIN and, as a result, its method of calculating KEC's economic basis in NEC TOKIN is the appropriate basis on which to recognize its share of the earnings or loss of NEC TOKIN.

In connection with KEC's execution of the Stock Purchase Agreement, KEC entered into a Stockholders' Agreement (the "Stockholders' Agreement") with NEC TOKIN and NEC, which provides for restrictions on transfers of NEC TOKIN's capital stock, certain tag-along and first refusal rights on transfer, restrictions on NEC's ability to convert the preferred stock of NEC TOKIN held by it, certain management services to be provided to NEC TOKIN by KEC (or an affiliate of KEC) and certain board representation rights. KEC holds four of seven NEC TOKIN director positions. However, NEC has significant board rights.

Concurrent with execution of the Stock Purchase Agreement and the Stockholders' Agreement, KEC entered into an Option Agreement (the "Option Agreement") with NEC, which was amended on August 29, 2014, whereby KEC had the right to purchase additional shares of NEC TOKIN common stock from NEC TOKIN for a purchase price of \$50.0 million resulting in an economic interest of approximately 49% while maintaining ownership of 51% of NEC TOKIN's common stock (the "First Call Option") by providing notice of the First Call Option between the Initial Closing and April 30, 2015. Upon providing such First Call Option notice, but not before April 1, 2015, KEC could also have exercised a second option to purchase all outstanding capital stock of NEC TOKIN from its stockholders, primarily NEC, for a purchase price based on the greater of six times LTM EBITDA (as defined in the Option Agreement) less the previous payments and certain other adjustments, or the outstanding amount of NEC TOKIN's debt obligation to NEC (the "Second Call Option") by providing notice of the Second Call Option by May 31, 2018. The First and Second Call Options expired on April 30, 2015 without being exercised. From April 1, 2015 through May 31, 2018, NEC may require KEC to purchase all outstanding capital stock of NEC TOKIN from its stockholders, primarily NEC (the "Put Option"), provided that KEC's payment of the Put Option price is permitted under the 10.5% Senior Notes and Loan and Security Agreement. However, in the event that KEC issues new debt securities principally to refinance its outstanding 10.5% senior notes due 2018 and its currently outstanding credit agreement, including amounts to pay related fees and expenses and to use for general corporate purposes ("Refinancing Notes"), prior to NEC's delivery of its notification of exercise of the Put Option, then the earliest date NEC may exercise the Put Option is automatically extended to the day immediately following the final scheduled maturity date of such Refinancing Notes, or in the event such Refinancing Notes are redeemed in full prior to such final scheduled maturity date, then on the day immediately following the date of such full redemption, but in any event beginning no later than November 1, 2019. If not previously exercised, the Put Option will expire on October 31, 2023.

The purchase price for the Put Option will be based on the greater of six times LTM EBITDA less previous payments and certain other adjustments, or the outstanding amount of NEC TOKIN's debt obligation to NEC as of the date the Put Option is exercised. The purchase price for the Put Option is reduced by the amount of NEC TOKIN's debt obligation to NEC which KEC will assume. The determination of the purchase price could be modified in the event there is a disagreement between NEC and KEC under the Stockholders' Agreement.

The Company has marked these options to fair value and in the quarter ended June 30, 2015 recognized a \$29.2 million loss, which was included on the line item "Other (income) expense, net" in the Condensed Consolidated Statement of Operations. The line item "Other non-current obligation" on the Condensed Consolidated Balance Sheets includes \$23.5 million and "Other assets" includes \$5.7 million as of June 30, 2015 and March 31, 2015, respectively, related to the options. It

[Table of Contents](#)

changed to a liability position during the quarter ended June 30, 2015 due to expiration of the First and Second Call Options on April 30, 2015 without being exercised.

KEC's total investment in NEC TOKIN including the net call derivative described above on February 1, 2013, the closing date of the acquisition, was \$54.5 million which includes \$50 million cash consideration plus approximately \$4.5 million in transaction expenses (fees for legal, accounting, due diligence, investment banking and various other services necessary to complete the transactions). The Company has made an allocation of the aggregate purchase price, which was based upon estimates that the Company believes are reasonable.

The above basis differences (except Goodwill) are being amortized over the respective estimated life of the assets. As of June 30, 2015, KEC's maximum loss exposure as a result of its investments in NEC TOKIN is limited to the aggregate of the carrying value of the investment and any accounts receivable balance due from NEC TOKIN. For the quarters ended June 30, 2015 and 2014, KEMET recorded sales of \$4.9 million and \$1.9 million, respectively, to NEC TOKIN and NEC TOKIN recorded sales of \$1.5 million and \$0.5 million, respectively, to KEMET. As of June 30, 2015 and March 31, 2015, KEMET's accounts receivable from NEC TOKIN were \$3.1 million and \$3.3 million, respectively. KEMET's accounts payable to NEC TOKIN were \$0.5 million and \$0.8 million as of June 30, 2015 and March 31, 2015, respectively. In accordance with the Stockholders' Agreement, KEC entered into a management services agreement with NEC TOKIN to provide services for which KEC would be reimbursed. As of June 30, 2015 and March 31, 2015, KEC's receivable balance under this agreement was \$0.6 million.

Beginning in March 2014, NEC TOKIN and certain of its subsidiaries received inquiries, requests for information and other communications from government authorities in China, the United States, the European Commission, Japan, South Korea Taiwan, Singapore and Brazil concerning alleged anti-competitive activities within the capacitor industry. The investigations are continuing at various stages. In addition, beginning in July 2014, NEC TOKIN and its subsidiary, NEC TOKIN America, Inc., have been named, along with more than 20 other capacitor manufacturers and subsidiaries, as defendants in purported antitrust class action suits by direct and indirect purchasers in the United States and Canada. As of March 31, 2015, NEC TOKIN has recorded an accrual for approximately \$30.0 million based on its estimation of losses likely to result from certain of the investigations and civil litigation. Pursuant to the Stock Purchase Agreement, NEC is required to indemnify NEC TOKIN and/or KEC for any breaches by NEC TOKIN or NEC of certain representations, warranties and covenants in the Stock Purchase Agreement. NEC's aggregate liability for indemnification claims is limited to \$25.0 million. Accordingly, KEMET, under equity method accounting, has established an indemnity asset in the amount of \$8.5 million (based upon our 34% economic interest in NEC TOKIN). However, pursuant to the Stock Purchase Agreement, claims arising out of fraud or criminal conduct are not limited by the \$25.0 million indemnification cap, and for such claims the claimant retains all remedies available in equity or at law. As of June 30, 2015, NEC TOKIN could not estimate the total losses which may result from the ongoing investigations and civil litigation because NEC TOKIN does not have sufficient information to be able to estimate the amount of all such losses. During the quarter ended June 30, 2015, NEC TOKIN has not changed the estimated accrual.

Note 7. Acquisitions

IntelliData

On April 1, 2015, KEMET purchased 100% of the stock of IntelliData, Inc. "IntelliData", a Greenwood Village, Colorado-based developer of digital solutions supporting discovery, decision support, and the sales and marketing of electronic components. IntelliData has been a key vendor of KEMET for over 15 years and has provided critical software and support to allow the Company's sales team and customers to use real-time part number search and competitor cross references based on complex capacitor-specific specifications. The primary reason for the purchase of IntelliData was to gain more control over the direction of future iterations of the software and its functionality and to protect this critical link in the sales process from any potential unfavorable changes in IntelliData's business model in the future. The purchase price was \$6.0 million plus an additional \$0.1 million per a post-acquisition amendment for a total purchase price of \$6.1 million, as amended. KEMET paid

[Table of Contents](#)

\$3.0 million at closing, \$0.1 million on June 3, 2015, and will pay the balance of \$3.0 million on January 4, 2016 per the amended agreement. The Company preliminarily recorded goodwill of \$4.7 million and amortizable intangibles of \$1.8 million. The allocation of the purchase price to specific assets and liabilities was based on the relative fair value of all assets and liabilities. Factors contributing to the purchase price, which resulted in the goodwill, include the knowledge and expertise of the trained workforce as well as various trademarks. Pro forma results are not presented because the acquisition was not material to the consolidated financial statements.

The following table presents the preliminary allocations of the aggregate purchase price based on the estimated fair values of the assets and liabilities (amounts in thousands):

	Fair Value
Cash	\$ 233
Accounts Receivable	10
Other current assets	6
Property, Plant and equipment	3
Goodwill	4,710
Intangible assets	1,820
Current liabilities	(9)
Deferred income taxes	(648)
Total net assets acquired	<u>\$ 6,125</u>

The allocation of the purchase price is preliminary as the Company is still evaluating the intangible assets and tax attributes of the transaction.

The changes in the carrying amount of goodwill for the quarters ended June 30, 2015 and March 31, 2015 are as follows (amounts in thousands):

Accumulated impairment losses	—	(1,092)	—	(1,092)
Ending balance, net	\$ 39,091	\$ 1,203	\$ 35,584	\$ —

The Company's goodwill balances as of June 30, 2015 and March 31, 2015 were \$40.3 million and \$35.6 million, respectively. The most recent annual goodwill impairment test was performed for all reporting units as of January 1, 2015. The Company also performs Step 1 of the goodwill impairment test on an interim basis upon the occurrence of events or substantive changes in circumstances that indicate that a reporting unit's carrying value may be less than its fair value. The Company completed an interim impairment test on goodwill and indefinite-lived intangible assets as of June 30, 2015, due to an indicator of possible impairment related to a significant decline in our stock price. Consistent with the policy described in the 2015 10-K, the Company performed Step 1 of the goodwill impairment test using a discounted cash flow analysis to estimate the fair value of the reporting unit. The Company also evaluated the indefinite-lived intangible assets, including trademarks with a carrying value of \$7.2 million, associated with the reporting unit for impairment as of June 30, 2015. The Company concluded that goodwill and indefinite-lived assets were not impaired nor were they at risk of failing step one of the impairment test as the ratios of fair value of the assets to carrying value were 1.9:1 and 13.1:1 for goodwill and trademarks, respectively. A one percent increase or decrease in the discount rate used in the goodwill valuation would have resulted in changes in the fair value of \$(13.2) million and \$16.7 million, respectively, and a one percent increase or decrease in the discount rate used in the indefinite-lived assets valuation would have resulted in changes in the fair value of \$(10.0) million and \$12.6 million, respectively. Neither would have resulted in an impairment charge.

Note 9. Segment and Geographic Information

The Company is organized into two business groups: Solid Capacitors and Film and Electrolytic. The business groups are responsible for their respective manufacturing sites as well as their respective research and development efforts. Consistent with management reporting, the Company does not allocate indirect Selling, general and administrative ("SG&A") and Research and development ("R&D") expenses to the business groups.

Solid Capacitors

Operating in nine manufacturing sites in the United States, Mexico and China, Solid Capacitors primarily produces tantalum, aluminum, polymer and ceramic capacitors which are sold globally. Solid Capacitors also produces tantalum powder used in the production of tantalum capacitors and has a product innovation center in the United States.

Film and Electrolytic

Operating in twelve manufacturing sites throughout Europe, Asia, and the United States, Film and Electrolytic primarily produces film, paper, and electrolytic capacitors which are sold globally. Film and Electrolytic also manufactures etched foils utilized as a core component in the manufacture of electrolytic capacitors. In addition, this business group has product innovation centers in the United Kingdom, Italy, Germany and Sweden.

Note 10. Defined Benefit Pension and Other Postretirement Benefit Plans

The Company sponsors six defined benefit pension plans in Europe, one plan in Singapore and two plans in Mexico. In addition, the Company sponsors a post-retirement plan in the United States. Costs recognized for benefit plans are recorded using estimated amounts which may change as actual costs for the fiscal year are determined.

The components of net periodic benefit (income) costs relating to the Company's pension and other postretirement benefit plans are as follows for the quarters ended June 30, 2015 and 2014 (amounts in thousands):

	Pension				Post-retirement Benefit Plan			
	Quarters Ended June 30,				Quarters Ended June 30,			
	2015		2014		2015		2014

Prior service cost		15		4		—		—
Total net periodic benefit (income) costs	\$	1,162	\$	770	\$	(34)	\$	(46)

In fiscal year 2016, the Company expects to contribute up to \$1.5 million to the pension plans, \$0.3 million of which has been contributed as of June 30, 2015. For the postretirement benefit plan, the Company's policy is to pay benefits as costs are incurred.

Note 11. Stock-based Compensation

The Company's stock-based compensation plans are broad-based, long-term retention programs intended to attract and retain talented employees and align stockholder and employee interests. At June 30, 2015, the Company had four stock option plans that reserved shares of common stock for issuance to executives and key employees: the 1992 Key Employee Stock Option Plan, the 1995 Executive Stock Option Plan, the 2004 Long-Term Equity Incentive Plan (collectively, the "Prior Plans") and the 2011 Omnibus Equity Incentive Plan (as amended by the 2014 Amendment and Restatement of the KEMET Corporation 2011 Omnibus Equity Incentive Plan) (the "2011 Incentive Plan"). Upon adoption and approval of the 2011 Incentive Plan, no further awards were permitted to be granted under the Company's prior plans. The 2011 Incentive Plan authorizes the Company to provide equity-based compensation in the form of: (1) stock options, including incentive stock options, entitling the optionee to favorable tax treatment under Section 422 of the Code; (2) stock appreciation rights; (3) restricted stock and restricted stock units; (4) other share-based awards; and (5) performance awards. Options issued under these plans vest within one to four years and expire ten years from the grant date. The Company grants restricted stock units to members of the Board of Directors, the Chief Executive Officer and key management. Once vested and settled, restricted stock units are converted into restricted stock. For members of the Board of Directors and senior personnel, such restricted stock cannot be sold until 90 days after termination of service with the Company, or until the individual achieves the targeted ownership under the Company's stock ownership guidelines, and only to the extent that such ownership level exceeds the target. Compensation expense is recognized over the respective vesting periods.

Historically, the Board of Directors of the Company has approved annual Long Term Incentive Plans ("LTIP") which cover two year periods and are primarily based upon the achievement of an Adjusted EBITDA target for the two-year period. At the time of the award, the individual plans entitle the participants to receive cash or restricted stock units, or a combination of both as determined by the Company's Board of Directors. The 2013/2014 LTIP, 2014/2015 LTIP, 2015/2016 LTIP, and 2016/2017 LTIP also awarded restricted stock units which vest over the course of three years from the anniversary of the establishment of the plan and are not subject to a performance metric. The Company assesses the likelihood of meeting the Adjusted EBITDA financial metric on a quarterly basis and adjusts compensation expense to match expectations. Any related liability is reflected in the line item "Accrued expenses" on the Condensed Consolidated Balance Sheets and any restricted stock unit commitment is reflected in the line item "Additional paid-in capital" on the Condensed Consolidated Balance Sheets.

On June 29, 2015, the Company granted 250,000 shares of restricted stock units ("RSUs") to the Chief Executive Officer. The restricted stock units had a grant date fair value of \$2.92 and vest as follows: 35,000 RSUs on March 31, 2017, 40,000 RSUs on March 31, 2018, and the balance of 175,000 RSUs on March 31, 2019.

Restricted stock activity for the three month periods ended June 30, 2015 is as follows (amounts in thousands except fair value):

	Shares	Weighted- average Fair Value on Grant Date
Non-vested restricted stock at March 31, 2015	1,000	\$ 4.57
Granted	250	2.92
Vested	(42)	4.38
Forfeited	—	—
Non-vested restricted stock at June 30, 2015	<u>1,208</u>	<u>4.24</u>

The compensation expense associated with stock-based compensation for the quarters ended June 30, 2015 and 2014 is recorded on the Condensed Consolidated Statements of Operations as follows (amounts in thousands):

	Quarter Ended June 30, 2015			Quarter Ended June 30, 2014		
	Stock Options	Restricted Stock	LTIPs	Stock Options	Restricted Stock	LTIPs
Cost of sales	\$ 34	\$ 151	\$ 228	\$ 108	\$ 21	\$ 217

Total	<u>\$ 77</u>	<u>\$ 499</u>	<u>\$ 703</u>	<u>\$ 228</u>	<u>\$ 199</u>	<u>\$ 567</u>

In the “Operating activities” section of the Condensed Consolidated Statements of Cash Flows, stock-based compensation expense was treated as an adjustment to Net income (loss) for the quarters ended June 30, 2015, and 2014. No stock options were exercised in the three month period ended June 30, 2015 and approximately three thousand stock options were exercised in the three month period ended June 30, 2014.

Note 12. Income Taxes

During the quarter ended June 30, 2015, the Company recognized \$0.2 million of income tax benefit from continuing operations which is comprised of a \$0.6 million federal income tax benefit from the acquisition of IntelliData, \$0.3 million income tax expense related to foreign operations and \$0.1 million of state income tax expense.

During the quarter ended June 30, 2014, the Company incurred \$1.3 million of income tax expense related to income taxes from continuing foreign operations. In addition, the Company incurred \$0.9 million of income tax expense related to the gain on sale of discontinued operations.

There is no U.S. federal income tax benefit from net operating losses for the quarters ended June 30, 2015 and 2014 due to a valuation allowance recorded on deferred tax assets.

Note 13. Basic and Diluted Net Income (Loss) Per Common Share

The following table presents basic EPS and diluted EPS (amounts in thousands, except per share data):

	Quarters Ended June 30,	
	2015	2014
Numerator:		
Income (loss) from continuing operations	\$ (37,050)	\$ (10,483)
Income (loss) from discontinued operations, net of income tax expense (benefit) of \$0 and \$918, respectively	—	6,943

Income (loss) from discontinued operations	\$ —	\$ 0.15
Net income (loss)	<u>\$ (0.81)</u>	<u>\$ (0.08)</u>

Common stock equivalents that could potentially dilute net income (loss) per basic share in the future, but were not included in the computation of diluted earnings per share because the impact would have been anti-dilutive, are as follows (amounts in thousands):

	Quarters Ended June 30,	
	2015	2014
Assumed conversion of employee stock grants	2,303	1,568
Assumed conversion of warrants	6,015	6,824

Note 14: Derivatives

In fiscal year 2015, the Company began using certain derivative instruments (i.e., foreign exchange contracts) to reduce exposure to the volatility of foreign currencies impacting revenues and the costs of its products.

The balance sheet classifications and fair value of derivative instruments as of June 30, 2015 are as follows (amounts in thousands):

	Fair Value of Derivative Instruments			
	Asset Derivatives		Liability Derivatives	
	Balance Sheet Caption	Fair Value (1)	Balance Sheet Caption	Fair Value (1)
Foreign exchange contracts	Prepaid and other assets	\$ —	Accrued expenses	\$ 1,944

(1) Fair Value measured using Level 2 inputs by adjusting the market spot rate by forward points, based on the date of the contract. The spot rates and forward points used are based on an average rate from an actively traded market.

Unrealized gains and losses associated with the change in value of these financial instruments are recorded in Accumulated other comprehensive income (loss) ("AOCI"). The pre-tax impact on AOCI related to the change in value of these financial instruments is as follows (amounts in thousands):

	Three Month Period Ended June 30, 2015
Beginning of fiscal year	\$ 1,003
Current fiscal year unrealized gain (loss) related to the change in value of the financial instruments	(2,947)
Plus unrealized gain (loss) in AOCI that were recognized in the current fiscal year	—
Net change in AOCI related to financial instruments	(2,947)
Balance at June 30, 2015	\$ (1,944)

Changes in the derivatives' fair values are deferred and recorded as a component of AOCI until the underlying transaction is settled and recorded to the income statement. When the hedged item affects income, gains or losses are reclassified from AOCI to the Consolidated Statement of Operations as Net sales for foreign exchange contracts to sell euros, and as Cost of sales for foreign exchange contracts to purchase Mexican pesos and Japanese yen. Any ineffectiveness, if material, in the Company's hedging relationships is recognized immediately as a loss, within the same income statement accounts as described above; to date, there has been no ineffectiveness. Changes in derivative balances impact the line items "Prepaid and other assets" and "Accrued Expenses" on the Consolidated Balance Sheets and Statements of Cash Flows.

The impact on the Consolidated Statement of Operations for the three month period ended June 30, 2015 is as follows (amounts in thousands):

Impact of Foreign Exchange Contracts on Condensed Consolidated Statement of Operations	
Statement Caption	Amount
Net Sales	\$ (350)
Operating costs and expenses:	
Cost of sales	\$ (154)
Total operating costs and expenses	\$ (154)
Operating income (loss)	\$ (504)

Hedging Foreign Currencies

Certain operating expenses at the Company's Mexican facilities are paid in Mexican pesos. In order to hedge a portion of these forecasted cash flows, the Company purchases foreign exchange contracts, with terms generally less than twelve months, to buy Mexican pesos for periods and amounts consistent with underlying cash flow exposures. These contracts are designated as cash flow hedges at inception and monitored for effectiveness on a routine basis. There were \$34.3 million in peso contracts (notional value) outstanding at June 30, 2015.

Certain expenditures at the Company's Mexican facilities are paid in Japanese yen. In order to hedge a portion of these forecasted cash flows, the Company purchases foreign exchange contracts, with terms generally less than six months, to buy Japanese yen for periods and amounts consistent with underlying cash flow exposures. These contracts are designated as cash flow hedges at inception and monitored for effectiveness on a routine basis. There were \$9.1 million in yen contracts (notional value) outstanding at June 30, 2015.

Certain sales are made in euros. In order to hedge a portion of these forecasted cash flows, management purchases foreign exchange contracts, with terms generally less than six months, to sell euros for periods and amounts consistent with the related underlying cash flow exposures. These contracts are designated hedges at inception and monitored for effectiveness on a routine basis. There were \$7.1 million in euro contracts (notional value) outstanding at June 30, 2015.

The Company formally documents all relationships between hedging instruments and hedged items, as well as risk management objectives and strategies for undertaking various hedge transactions.

Note 15. Concentrations of Risks

The Company sells to customers globally and, as the Company generally does not require collateral from its customers, on a monthly basis the Company evaluates customer account balances in order to assess the Company's financial risks of collection. One customer, TTI, Inc., an electronics distributor, accounted for over 10% of the Company's net sales in the quarters ended June 30, 2015 and 2014. There were no accounts receivable balances from any customer exceeding 10% of gross accounts receivable as of June 30, 2015 and March 31, 2015.

Electronics distributors are an important distribution channel in the electronics industry and accounted for 43% and 47% of the Company's net sales in the three month periods ended June 30, 2015 and 2014, respectively. As a result of the Company's concentration of sales to electronics distributors, the Company may experience fluctuations in the Company's operating results as electronics distributors experience fluctuations in end-market demand or adjust their inventory stocking levels.

Note 16. Condensed Consolidating Financial Statements

The 10.5% Senior Notes are fully and unconditionally guaranteed, jointly and severally, on a senior basis by certain of the Company's 100% owned domestic subsidiaries ("Guarantor Subsidiaries") and secured by a first priority lien on 51% of the capital stock of certain of our foreign restricted subsidiaries ("Non-Guarantor Subsidiaries"). The Company's Guarantor Subsidiaries and Non-Guarantor Subsidiaries are not consistent with the Company's business groups or geographic operations; accordingly, this basis of presentation is not intended to present the Company's financial condition, results of operations or cash flows for any purpose other than to comply with the specific requirements for subsidiary guarantor reporting. The Company is required to present condensed consolidating financial information in order for the subsidiary guarantors of the Company's public debt to be exempt from reporting under the Securities Exchange Act of 1934, as amended.

Condensed consolidating financial statements for the Company's Guarantor Subsidiaries and Non-Guarantor Subsidiaries are presented in the following tables (amounts in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report contains certain statements that are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Actual outcomes and results may differ materially from those expressed in, or implied by, our forward-looking statements. Words such as "expects," "anticipates," "believes," "estimates" or other similar expressions and future or conditional verbs such as "will," "should," "would" and "could" are intended to identify such forward-looking statements. Readers of this report should not rely solely on the forward-looking statements and should consider all uncertainties and risks throughout this report as well as those discussed under Part I, Item 1A Risk Factors, of the Company's 2015 Annual Report. The statements are representative only as of the date they are made, and we undertook no obligation to update any forward-looking statement.

All forward-looking statements, by their nature, are subject to risks and uncertainties. Our actual future results may differ materially from those set forth in our forward-looking statements. We face risks that are inherent in the businesses and the market places in which we operate. While management believes these forward-looking statements are accurate and reasonable, uncertainties, risks and factors, including those described below, could cause actual results to differ materially from those reflected in the forward-looking statements.

Factors that may cause actual outcomes and results to differ materially from those expressed in, or implied by, these forward-looking statements include, but are not necessarily limited to, the following: (i) adverse economic conditions could impact our ability to realize operating plans if the demand for our products declines, and such conditions could adversely affect our liquidity and ability to continue to operate; (ii) continued net losses could impact our ability to realize current operating plans and could materially adversely affect our liquidity and our ability to continue to operate; (iii) adverse economic conditions could cause the write down of long-lived assets or goodwill; (iv) an increase in the cost or a decrease in the availability of our principal or single-sourced purchased materials; (v) changes in the competitive environment; (vi) uncertainty of the timing of customer product qualifications in heavily regulated industries; (vii) economic, political, or regulatory changes in the countries in which we operate; (viii) difficulties, delays or unexpected costs in completing the restructuring plans; (ix) equity method investment in NEC TOKIN exposes us to a variety of risks; (x) possible acquisition of NEC TOKIN may not achieve all of the anticipated results; (xi) acquisitions and other strategic transactions expose us to a variety of risks; (xii) our business could be negatively impacted by increased regulatory scrutiny and litigation; (xiii) inability to attract, train and retain effective employees and management; (xiv) inability to develop innovative products to maintain customer relationships and offset potential price erosion in older products; (xv) exposure to claims alleging product defects; (xvi) the impact of laws and regulations that apply to our business, including those relating to environmental matters; (xvii) the impact of international laws relating to trade, export controls and foreign corrupt practices; (xviii) volatility of financial and credit markets affecting our access to capital; (xix) the need to reduce the total costs of our products to remain competitive; (xx) potential limitation on the use of net operating losses to offset possible future taxable income; (xxi) restrictions in our debt agreements that limit our flexibility in operating our business; (xxii) failure of our information technology systems to function properly or our failure to control unauthorized access to our systems may cause business disruptions; (xxiii) additional exercise of the warrant by K Equity which could potentially result in the existence of a significant stockholder who could seek to influence our corporate decisions; and (xxiv) fluctuation in distributor sales could adversely affect our results of operations.

Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations and could cause actual results to differ materially from those included, contemplated or implied by the forward-looking statements made in this report, and the reader should not consider the above list of factors to be a complete set of all potential risks or uncertainties.

Accounting Policies and Estimates

The following discussion and analysis of financial condition and results of operations are based on the unaudited condensed consolidated financial statements included herein. Our significant accounting policies are described in Note 1 to the consolidated financial statements in our 2015 Annual Report. Our critical accounting policies are described under the caption "Critical Accounting Policies" in Item 7 of our 2015 Annual Report.

The Company's goodwill balances as of June 30, 2015 and March 31, 2015 were \$40.3 million and \$35.6 million, respectively. The most recent annual goodwill impairment test was performed for all reporting units as of January 1, 2015. The Company also performs Step 1 of the goodwill impairment test on an interim basis upon the occurrence of events or substantive changes in circumstances that indicate that a reporting unit's carrying value may be less than its fair value. The Company completed an interim impairment test on goodwill and indefinite-lived intangible assets as of June 30, 2015, due to an indicator of possible impairment related to a significant decline in our stock price. Consistent with the policy described in

the 2015 10-K, the Company performed Step 1 of the goodwill impairment test using a discounted cash flow analysis to estimate the fair value of the reporting unit. The Company also evaluated the indefinite-lived intangible assets, including trademarks with a carrying value of \$7.2 million, associated with the reporting unit for impairment as of June 30, 2015. The Company concluded that goodwill and indefinite-lived assets were not impaired nor were they at risk of failing step one of the impairment test as the ratios of fair value of the assets to carrying value were 1.9:1 and 13.1:1 for goodwill and trademarks, respectively. A one percent increase or decrease in the discount rate used in the goodwill valuation would have resulted in changes in the fair value of \$(13.2) million and \$16.7 million, respectively, and a one percent increase or decrease in the discount rate used in the indefinite-lived assets valuation would have resulted in changes in the fair value of \$(10.0) million and \$12.6 million, respectively. Neither would have resulted in an impairment charge.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates, assumptions, and judgments based on historical data and other assumptions that management believes are reasonable. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of revenues and expenses during the reporting period.

Our judgments are based on management's assessment as to the effect certain estimates, assumptions, future trends or events may have on the financial condition and results of operations reported in the unaudited condensed consolidated financial statements. It is important that readers of these unaudited financial statements understand that actual results could differ from these estimates, assumptions, and judgments.

Business Overview

KEMET is a leading global manufacturer of a wide variety of capacitors. Capacitors are fundamental components of most electronic circuits and are found in communication systems, data processing equipment, personal computers, cellular phones, automotive electronic systems, defense and aerospace systems, consumer electronics, power management systems and many other electronic devices and systems. Capacitors are typically used to filter out interference, smooth the output of power supplies, block the flow of direct current while allowing alternating current to pass and for many other purposes.

Manufacturing a broad line of tantalum, multilayer ceramic, solid and electrolytic aluminum and film and paper capacitors, KEMET's product line consists of nearly 5 million distinct part configurations distinguished by various attributes, such as dielectric (or insulating) material, configuration, encapsulation, capacitance level and tolerance, operating temperature, performance characteristics and packaging. Because most of our customers have multiple capacitance requirements, often within each of their products, our broad product offering allows us to meet the majority of their needs independent of application and end use.

KEMET operates 21 production facilities in Europe, North America, and Asia, and employs approximately 9,300 employees worldwide. Commodity manufacturing has been substantially relocated to our lower-cost manufacturing facilities in Mexico, China and Europe. Production remaining in the United States focuses primarily on early-stage manufacturing of new products and specialty products for which customers are predominantly located in North America.

Our products are sold into a wide range of different end markets, including computing, industrial, telecommunications, transportation, consumer, defense and healthcare across all geographic regions. No single end market industry accounted for more than 30% of net sales although, one customer, a distributor, accounted for more than 10% of net sales in the three month period ended June 30, 2015. During the three month period ended June 30, 2015 we introduced 925 new products of which 177 were first to market. In addition, we continue to focus on specialty products which accounted for 41.4% of our revenue over this period.

We believe the long-term demand for capacitors will grow on a regional and global basis due to a variety of factors, including increasing demand for and complexity of electronic products, growing demand for technology in emerging markets and the ongoing development of new solutions for energy generation and conservation.

We are organized into two business groups: Solid Capacitors business group ("Solid Capacitors") and the Film and Electrolytic business group ("Film and Electrolytic"). The business groups are responsible for their respective manufacturing sites as well as all related research and development efforts. The sales, marketing and corporate finance functions are shared by each of the business groups.

Recent Developments and Trends

Net sales for the quarter ended June 30, 2015 of \$187.6 million decreased \$6.1 million or 3.2% from \$193.7 million for the quarter ended March 31, 2015. Operating income of \$1.2 million increased \$0.3 million from operating income of \$0.9 million in the quarter ended March 31, 2015.

The following items have been reflected in the financial statements for the quarter ended June 30, 2015:

Acquisition

On April 1, 2015 KEMET purchased IntelliData, Inc. ("IntelliData"), a Greenwood Village, Colorado-based developer of digital solutions supporting discovery, decision support, and the sales and marketing of electronic components. As a KEMET vendor since 2000, IntelliData provides a variety of content automation and delivery tools and services. IntelliData was founded in 1999 by electronics industry executives. IntelliData's database and software products support more than 560 electronic component manufacturers, delivering power and efficiency to design/selection, decision support, sales and marketing. The purchase price was \$6.0 million plus an additional \$0.1 million per a post-acquisition amendment. The Company preliminarily recorded goodwill of \$4.7 million and amortizable intangibles of \$1.8 million.

Equity Investment

KEC's First and Second Call Options (as defined in Note 6, "Investment in NEC TOKIN") to purchase additional capital stock of NEC TOKIN expired on April 30, 2015 without being exercised. From April 1, 2015 through May 31, 2018, NEC Corporation of Japan may exercise its Put Option, provided that KEC's payment of the Put Option price is permitted under the 10.5% Senior Notes and Loan and Security Agreement. The Company has marked these options to fair value and in the quarter ended June 30, 2015 recorded a \$29.2 million loss, which was included on the line item "Other (income) expense, net" in the Condensed Consolidated Statement of Operations. The line item "Other non-current obligation" on the Condensed Consolidated Balance Sheets includes \$23.5 million as of June 30, 2015 related to the option.

Restructuring

KEMET is in the process of various restructuring plans to make the Company more competitive by removing excess capacity, relocating production to lower cost locations and eliminating unnecessary costs throughout the Company. We incurred \$1.8 million in restructuring charges in the three month period ended June 30, 2015 including \$1.5 million of personnel reduction costs and \$0.3 million of manufacturing relocation costs.

Outlook

For the second quarter of fiscal year 2016, we expect net sales to be within the \$185 million to \$190 million range and gross margin as a percentage of net sales to reflect an improvement of approximately 100 basis points.

Net Sales

Net sales for the quarter ended June 30, 2015 of \$187.6 million decreased \$25.3 million or 11.9% from \$212.9 million for the quarter ended June 30, 2014. Solid Capacitors and Film and Electrolytic decreased \$20.1 million and \$5.2 million, respectively. The decrease in net sales for Solid Capacitors primarily related to a decrease in certain Tantalum products unit sales volumes in the Americas and EMEA distributor channels, in addition, net sales were unfavorably impacted by \$4.8 million from foreign currency exchange primarily due to the change in the value of the Euro compared to the U.S. dollar for the quarter ended June 30, 2015 compared to the quarter ended June 30, 2014. For Film and Electrolytic, the decrease in net sales was unfavorably impacted by \$7.5 million from foreign currency exchange primarily due to the change in the value of the Euro compared to the U.S. dollar for the quarter ended June 30, 2015 compared to the quarter ended June 30, 2014.

The following table reflects the percentage of net sales by region for the quarters ended June 30, 2015 and 2014:

	Quarters Ended June 30,	
	2015	2014
Americas	30 %	31 %
EMEA	33 %	36 %
APAC	37 %	33 %
	100 %	100 %

The following table reflects the percentage of net sales by channel for the quarters ended June 30, 2015 and 2014:

	Quarters Ended June 30,	
	2015	2014
Distributors	43 %	47 %
EMS	21 %	16 %
OEM	36 %	37 %
	<u>100 %</u>	<u>100 %</u>

Gross Margin

Gross margin for the quarter ended June 30, 2015 of \$39.7 million (21.2% of net sales) increased \$6.8 million or 20.5% from \$33.0 million (15.5% of net sales) for the quarter ended June 30, 2014. The primary contributor to the increase in gross margin as a percentage of net sales was an improvement in the gross margin for Film and Electrolytic driven by the headcount reductions and manufacturing relocations previously completed within the European operations as part of our restructuring plan and cost reduction activity across all plants. Gross margin for Solid Capacitors was flat despite the decrease in net sales. The improvement in gross margin as a percentage of net sales for Solid Capacitors is due to vertical integration and manufacturing process improvements.

Selling, general and administrative expenses ("SG&A")

SG&A expenses of \$30.4 million (16.2% of net sales) for the quarter ended June 30, 2015 increased \$5.7 million or 22.8% from \$24.8 million (11.6% of net sales) for the quarter ended June 30, 2014. The increase is attributable primarily to the following items: a \$3.5 million increase in ERP integration and information technology transition costs; a \$1.1 million increase in legal fees; a \$1.0 million increase in payroll and related fringe benefit expenses; a \$0.9 million increase in professional fees, consulting, and contractor expenses; and a \$0.6 million increase in non-income-related taxes. Partially offsetting these increases was a \$0.4 million decrease in software expense, a \$0.4 million decrease in office and equipment rental expense, a \$0.3 million decrease in depreciation expense, and a \$0.2 million decrease in conferences and seminars.

Research and development ("R&D")

R&D expenses of \$6.3 million (3.3% of net sales) for the quarter ended June 30, 2015 decreased \$0.3 million or 4.8% compared to \$6.6 million (3.1% of net sales) for the quarter ended June 30, 2014 primarily as a result of favorable foreign exchange rates.

Restructuring charges

Restructuring charges of \$1.8 million for the quarter ended June 30, 2015 were consistent with the the quarter ended June 30, 2014 of \$1.8 million.

The Company incurred \$1.8 million in restructuring charges in the quarter ended June 30, 2015 including \$1.5 million of personnel reduction costs due to the following: \$0.6 million in a headcount reduction Suzhou, China for the Film & Electrolytic production line transfer from Suzhou, China to Anting, China, \$0.5 million for planned headcount reductions in Europe (primarily Landsberg, Germany), \$0.2 million for headcount reductions in Matamoros, Mexico related to the relocation of certain Solid Capacitor manufacturing from Matamoros, Mexico to Victoria, Mexico, and \$0.2 million for headcount reductions related to the outsourcing of the Company's information technology function and overhead reductions in North America and Europe including the outsourcing of its information technology function. The Company also incurred \$0.3 million of manufacturing relocation costs for transfers of Film and Electrolytic production lines.

The Company incurred \$1.8 million in restructuring charges in the quarter ended June 30, 2014 including \$1.7 million of manufacturing relocation costs primarily due to the shut-down of the Tantalum production line in Evora, Portugal and \$0.1 million of personnel reduction costs due to a reduction in overhead in Europe.

Operating income (loss)

Operating income of \$1.2 million for the quarter ended June 30, 2015 improved \$1.8 million from an operating loss of \$0.6 million for the quarter ended June 30, 2014. The improvement was primarily attributable to a \$6.8 million increase in

gross margin, a \$0.4 improvement in the gain (loss) on sales and disposals of assets and a \$0.3 million decrease in R&D expenses. These improvements were partially offset by a \$5.7 million increase in SG&A expenses.

Non-operating (income) expense, net

Non-operating (income) expense, net was a net expense of \$40.1 million for the quarter ended June 30, 2015 compared to a net expense of \$6.9 million for the quarter ended June 30, 2014. The change is primarily attributable to a \$29.2 million decrease in the value of the NEC TOKIN options during the quarter ended June 30, 2015 compared to a \$4.1 million increase in the value of the NEC TOKIN options during the quarter ended June 30, 2014. The decrease in the value of the NEC TOKIN options during the quarter ended June 30, 2015 is driven by the expiration of KEC's First and Second Call Options (as defined in Note 6, "Investment in NEC TOKIN") without being exercised. During the quarter ended June 30, 2015, we also recognized a \$1.0 million foreign currency exchange loss compared to a \$0.5 million foreign currency exchange loss for the quarter ended June 30, 2014, which was primarily due to the change in the value of the Euro and Mexican Peso compared to the U.S. dollar. Partially offsetting these unfavorable items was a \$0.4 million decrease of net interest expense during the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015 primarily due to a decrease in amortization of debt discounts and issuance costs.

Income taxes

Income tax benefit from continuing operations of \$0.2 million for the quarter ended June 30, 2015 decreased \$1.5 million compared to income tax expense from continuing operations of \$1.3 million for the quarter ended June 30, 2014. During the quarter ended June 30, 2015, the income tax expense from continuing operations was comprised of a \$0.6 million federal income tax benefit from the acquisition of IntelliData, a \$0.3 million income tax expense from foreign operations and \$0.1 million of state income tax expense. During the quarter ended June 30, 2014, the Company incurred \$1.3 million of income tax expense related to income taxes from continuing foreign operations.

There is no U.S. federal income tax benefit from net operating losses for the quarters ended June 30, 2015 and 2014 due to a valuation allowance recorded on deferred tax assets.

Equity income (loss) from NEC TOKIN

Equity income related to our 34% economic interest in NEC TOKIN of \$1.6 million for the quarter ended June 30, 2015 improved \$3.3 million compared to an equity loss of \$1.7 million for the quarter ended June 30, 2014. The improvement is due primarily to: \$1.2 million favorable change in the foreign exchange, a \$0.8 million gain due to a lawsuit settlement, a \$0.7 million improvement in gross margin, a \$0.5 million decrease in step up basis adjustments, and a \$0.6 million decrease in other expenses (professional fees, bonus allowance and R&D expense). The improvement in gross margin was primarily driven by sales mix improvement, improvements in manufacturing efficiencies, and a reduction of personnel costs. Partially offsetting these favorable items were a \$0.3 million increase in legal expenses relating to antitrust action lawsuits and a \$0.2 million increase in income tax expenses.

Discontinued operations

Income from discontinued operations was \$6.9 million for the quarter ended June 30, 2014 and related to the sale of the machinery division in April 2014. There was no activity related to discontinued operations in the quarter ended June 30, 2015.

Business Groups Comparison of the Quarter Ended June 30, 2015 with the Quarter Ended June 30, 2014

The following table reflects each business group's net sales and operating income (loss), for the quarters ended June 30, 2015 and 2014 (amounts in thousands):

	Quarters Ended June 30,	
	2015	2014
Net sales:		
Solid Capacitors	\$ 139,677	\$ 159,790
Film and Electrolytic	47,913	53,091
Total	\$ 187,590	\$ 212,881
Operating income (loss):		
Solid Capacitors	\$ 30,033	\$ 29,734
Film and Electrolytic	712	(6,047)
Corporate	(29,502)	(24,293)
Total	\$ 1,243	\$ (606)

Solid Capacitors

The following table sets forth net sales, operating income (loss), and operating income (loss) as a percentage of net sales for our Solid Capacitors business group for the quarters ended June 30, 2015 and 2014 (amounts in thousands, except percentages):

	Quarters Ended June 30,			
	2015		2014	
	Amount	% to Net Sales	Amount	% to Net Sales
Tantalum product line net sales	\$ 87,004		\$ 97,943	
Ceramic product line net sales	52,673		61,847	
Solid Capacitors net sales	\$ 139,677		\$ 159,790	
Solid Capacitors operating income (loss)	\$ 30,033	21.5 %	\$ 29,734	18.6 %

Net sales

Solid Capacitors net sales of \$139.7 million for the quarter ended June 30, 2015 decreased \$20.1 million or 12.6% from \$159.8 million for the quarter ended June 30, 2014. The decrease in net sales was unfavorably impacted by \$4.8 million from foreign currency exchange primarily due to the change in the value of the Euro compared to the U.S. dollar. Tantalum product line net sales of \$87.0 million for the quarter ended June 30, 2015 decreased \$10.9 million or 11.2% from \$97.9 million for the quarter ended June 30, 2014, driven primarily by a decrease in certain Tantalum products unit sales volumes in the Americas and EMEA distributor channels. Ceramic net sales of \$52.7 million for the quarter ended June 30, 2015 decreased \$9.2 million or 14.8% from \$61.8 million for the quarter ended June 30, 2014, driven primarily by a decrease in net sales of commercial and specialty products in the Americas and EMEA distributor channels.

Segment operating income (loss)

Segment operating income of \$30.0 million for the quarter ended June 30, 2015 increased \$0.3 million or 1.0% from \$29.7 million in the quarter ended June 30, 2014 primarily as a result of a \$1.0 million decrease in restructuring charges partially offset by a \$0.5 million increase in SG&A charges and a \$0.1 million increase in other operating expenses. As noted, despite the \$20.1 million decrease in net sales, our gross margin only decreased \$0.1 million due to vertical integration, and manufacturing process improvements as a result of our partnership with NEC TOKIN.

Film and Electrolytic

The following table sets forth net sales, operating income (loss) and operating income (loss) as a percentage of net sales for our Film and Electrolytic business group for the quarters ended June 30, 2015 and 2014 (amounts in thousands, except percentages):

	Quarters Ended June 30,			
	2015		2014	
	Amount	% to Net Sales	Amount	% to Net Sales
Net sales	\$ 47,913		\$ 53,091	
Operating income (loss)	712	1.5%	(6,047)	(11.4)%

Net sales

Film and Electrolytic net sales of \$47.9 million for the quarter ended June 30, 2015 decreased \$5.2 million or 9.8% from \$53.1 million for the quarter ended June 30, 2014. The decrease in net sales was unfavorably impacted by \$7.5 million from foreign currency exchange primarily due to the change in the value of the Euro compared to the U.S. dollar. Partially offsetting this decrease in sales attributable to foreign currency exchange was a \$2.3 million increase due to improved sales in the Americas and EMEA regions.

Segment operating income (loss)

Segment operating income of \$0.7 million for the quarter ended June 30, 2015 increased \$6.8 million from a loss of \$6.0 million in the quarter ended June 30, 2014. The increase in segment operating income was primarily attributable to a \$6.9 million improvement in gross margin driven by the headcount reductions and manufacturing relocations previously completed within the European operations as part of our restructuring plan and cost reduction activity across all plants.

Liquidity and Capital Resources

Our liquidity needs arise from working capital requirements, capital expenditures, acquisitions, principal and interest payments on debt, and costs associated with the implementation of our restructuring plans. Historically, our cash needs have been met by cash flows from operations, borrowings under our loan agreements and existing cash balances.

10.5% Senior Notes

As of June 30, 2015 and March 31, 2015, we had outstanding \$355.0 million in aggregate principal amount of the Company's 10.5% Senior Notes due May 1, 2018 (the "10.5% Senior Notes").

Revolving Line of Credit

As of June 30, 2015, the Company had the following activity and resulting balances under its revolving line of credit (amounts in millions, excluding percentages):

	As of March 31, 2015		For the three month period ended June 30, 2015		As of June 30, 2015		
	Outstanding Borrowings		Additional Borrowings	Repayments	Outstanding Borrowings	Rate (1) (2)	Due Date (3)

Total Facilities	\$ 33.5		\$ 8.0	\$ 2.5	\$ 39.0		

(1) For U.S. borrowings, Base Rate plus 1.50%, as defined in the Loan and Security Agreement dated September 30, 2010, as amended, by and among KEC, KEMET Electronics Marketing (S) Pte. Ltd., KEMET Foil Manufacturing, LLC ("KEMET Foil"), KEMET Blue Powder Corporation ("KEMET Blue Powder"), The Forest Electric Company and the financial institutions party thereto (the "Loan and Security Agreement").

(2) For Singapore borrowings, London Interbank Offer Rate ("LIBOR"), plus a spread of 2.75%.

(3) The Company has the intent and ability to extend the due date on the Singapore borrowings beyond one year.

These were the only borrowings under the revolving line of credit as of June 30, 2015.

Short-term Liquidity

Unrestricted cash and cash equivalents as of June 30, 2015 of \$31.1 million decreased \$25.3 million from \$56.4 million as of March 31, 2015. Our net working capital (current assets less current liabilities) as of June 30, 2015 was \$226.6 million compared to \$239.1 million as of March 31, 2015. Cash and cash equivalents held by our foreign subsidiaries totaled \$17.7 million and \$22.6 million at June 30, 2015 and March 31, 2015, respectively. Our operating income outside the U.S. is no longer deemed to be permanently reinvested in foreign jurisdictions. As a result, we set up a deferred tax liability as of March 31, 2015 on the undistributed foreign earnings which was offset by a valuation allowance. However, we currently do not intend nor foresee a need to repatriate cash and cash equivalents held by foreign subsidiaries. If these funds are needed for our operations in the U.S., we may be required to accrue U.S. withholding taxes on the distributed foreign earnings.

The decrease in cash in the first quarter of fiscal year 2016 primarily related to our semi-annual interest payment obligation of \$18.6 million, a \$10.0 million increase in inventories, the payment of incentive compensation, and payment for a portion of our acquisition of IntelliData. Our current restructuring activities to improve our cost structure by relocating headcount to lower cost areas and vertically integrating our supply chain are coming to an end. We expect these efforts to be reflected as an improvement to our operating cash flows in future periods. Based on our current operating plans, we believe domestic cash and cash equivalents are sufficient to fund our operating requirements for the next twelve months, including \$38.7 million in interest payments, \$20.0 million to \$25.0 million in expected capital expenditures, \$3.0 million in deferred acquisition payments, \$6.6 million in restructuring payments, and \$6.0 million in debt principal payments. As of June 30, 2015, our borrowing capacity under the revolving line of credit was \$7.2 million. The revolving line of credit expires on December 19, 2019.

Should we require more capital than is generated by our operations or available through our revolving line of credit, we could attempt to raise capital through debt issuances or the sale of certain non-core assets. However, due to market conditions beyond our control, there can be no assurance that we would be able to complete such an offering or sale transaction. The incurrence of additional debt may result in increased interest expense.

Cash and cash equivalents decreased \$25.3 million for the three month period ended June 30, 2015, as compared with an increase of \$0.5 million during the three month period ended June 30, 2014.

The following table provides a summary of cash flows for the quarters presented (amounts in thousands):

	Quarters Ended June 30,	
	2015	2014
Net cash provided by (used in) operating activities	\$ (21,524)	\$ (12,145)
Net cash provided by (used in) investing activities	(8,665)	7,691
Net cash provided by (used in) financing activities	4,475	5,010
Effect of foreign currency fluctuations on cash	411	(63)
Net increase (decrease) in cash and cash equivalents	\$ (25,303)	\$ 493

Operating

Cash used in operating activities in the three month period ended June 30, 2015 of \$21.5 million increased \$9.4 million compared to cash used in operating activities of \$12.1 million in the three month period ended June 30, 2014. The increase in the use of cash was primarily a result of an increase in inventory of \$10.0 million in the three month period ended June 30, 2015 compared to a \$1.9 million increase in the three month period ended June 30, 2014. The increase in inventory balances as of June 30, 2016 is primarily related to an increase of Film and Electrolytic's inventory in preparation of the temporary shut-down of production lines in order to relocate the production lines and secondarily related to an overall decrease in net sales. Additionally, in the three month period ended June 30, 2015, an increase in accounts receivable used \$4.9 million in cash, compared to the three month period ended June 30, 2014, during which a decrease in accounts receivable generated \$0.4 million in cash.

Partially offsetting the change in operating assets was a \$3.6 million increase in operating cash flows in the three month period ended June 30, 2015 compared to the three month period ended June 30, 2014 (changes in net income (loss) adjusted for the change in: depreciation and amortization, equity (income) loss from NEC TOKIN, amortization of debt and financing costs, stock based compensation expense, change in value of NEC TOKIN options, net (gain) loss on sales and disposals of assets, pension and other post-retirement benefits, deferred income taxes, and long-term receivable write down). In addition, the change in operating liabilities resulted in a \$0.3 million increase in cash in the three month period ended June 30, 2015 compared to the three month period ended June 30, 2014.

Investing

Cash used in investing activities in the three month period ended June 30, 2015 of \$8.7 million changed by \$16.4 million compared to cash provided by investing activities of \$7.7 million in the three month period ended June 30, 2014.

Cash used in investing activities during the three month period ended June 30, 2015 included capital expenditures of \$5.8 million primarily related to expanding capacity at our manufacturing facilities in Granna, Sweden and Suzhou, China and information technology projects in Simpsonville, South Carolina, and \$2.9 million related to our acquisition of IntelliData.

In comparison, cash provided by investing activities during the three month period ended June 30, 2014 included \$10.1 million from the sale of discontinued operations, \$2.4 million from the sale of other assets, and \$0.3 million from restricted cash related to an agreement we had with an original equipment manufacturer, and were offset by \$5.2 million used for capital expenditures primarily related to our new manufacturing facility in Pontecchio, Italy, and various information technology-related projects.

Financing

Cash provided by financing activities in the three month period ended June 30, 2015 of \$4.5 million decreased \$0.5 million from cash provided by financing activities of \$5.0 million in the three month period ended June 30, 2014, due primarily to a decrease in net proceeds from the revolving line of credit.

During the three month period ended June 30, 2015, we received \$5.5 million in net proceeds under the Loan and Security Agreement, while spending \$0.5 million for debt payments and \$0.5 million for purchase of treasury stock.

In comparison, during the three month period ended June 30, 2014, we received \$7.5 million in proceeds under the Loan and Security Agreement while spending \$2.2 million for debt payments and making deferred acquisition payments of \$0.3 million related to the KEMET Foil and KEMET Blue Powder Corporation acquisitions.

Commitments

With the exception of the IntelliData acquisition, for which we have a commitment of \$3.0 million due on January 4, 2016, our commitments have not materially changed from those disclosed in the Company's 2015 Annual Report.

Non-U.S. GAAP Financial Measures

To complement our Condensed Consolidated Statements of Operations and Cash Flows, we use non-U.S. GAAP financial measures of Adjusted gross margin, Adjusted operating income (loss), Adjusted net income (loss) and Adjusted EBITDA. Management believes that Adjusted gross margin, Adjusted operating income (loss), Adjusted net income (loss) and Adjusted EBITDA are complements to U.S. GAAP amounts and such measures are useful to investors. The presentation of these non-U.S. GAAP measures is not meant to be considered in isolation or as an alternative to net income as an indicator of our performance, or as an alternative to cash flows from operating activities as a measure of liquidity.

The following table provides reconciliation from U.S. GAAP Gross margin to Non-U.S. GAAP Adjusted gross margin (amounts in thousands):

	Quarters Ended June 30,	
	2015	2014
Net sales	\$ 187,590	\$ 212,881
Cost of sales	\$ 147,877	\$ 179,924
Gross margin	\$ 39,713	\$ 32,957
Adjustments:		
Plant start-up costs	195	1,647
Stock-based compensation expense	413	346
Plant shut-down costs	—	889
Inventory revaluation	—	2,676
Adjusted gross margin	\$ 40,321	\$ 38,515
	21.5 %	18.1 %

Adjusted operating income (loss) is calculated as follows (amounts in thousands):

	Quarters Ended June 30,	
	2015	2014
Operating income (loss)	\$ 1,243	\$ (606)
Adjustments:		
Restructuring charges	1,824	1,830
Inventory revaluation	—	2,676
Net (gain) loss on sales and disposals of assets	(58)	365
Stock-based compensation expense	1,279	994
Legal expenses related to antitrust class actions	718	—

Adjusted gross margin represents net sales less cost of sales excluding adjustments which are outlined in the quantitative reconciliation provided above. Management uses Adjusted gross margin to facilitate our analysis and understanding of our business operations and believes that Adjusted gross margin is useful to investors because it provides a supplemental way to understand the underlying operating performance of the Company. Adjusted gross margin should not be considered as an alternative to gross margin or any other performance measure derived in accordance with U.S. GAAP.

Adjusted operating income (loss) represents operating income (loss), excluding adjustments which are outlined in the quantitative reconciliation provided above. We use Adjusted operating income (loss) to facilitate our analysis and understanding of our business operations and believe that Adjusted operating income (loss) is useful to investors because it provides a supplemental way to understand our underlying operating performance. Adjusted operating income (loss) should not be considered as an alternative to operating income or any other performance measure derived in accordance with U.S. GAAP.

Adjusted net income (loss) represents net income (loss), excluding adjustments which are more specifically outlined in the quantitative reconciliation provided above. We use Adjusted net income (loss) to evaluate our operating performance and believe that Adjusted net income (loss) is useful to investors because it provides a supplemental way to understand our underlying operating performance. Adjusted net income (loss) should not be considered as an alternative to net income (loss) from continuing operations, operating income (loss) or any other performance measures derived in accordance with U.S. GAAP.

Adjusted EBITDA represents net income (loss) before interest expense, net, income tax expense (benefit), and depreciation and amortization expense, excluding adjustments which are outlined in the quantitative reconciliation provided above. We present Adjusted EBITDA as a supplemental measure of our performance and ability to service debt. We also present Adjusted EBITDA because we believe this measure is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. Adjusted EBITDA is also used as a measure to determine incentive compensation.

[Table of Contents](#)

We believe Adjusted EBITDA is an appropriate supplemental measure of debt service capacity, because cash expenditures on interest are, by definition, available to pay interest, and tax expense is inversely correlated to interest expense because tax expense goes down as deductible interest expense goes up; and depreciation and amortization are non-cash charges. The other items excluded from Adjusted EBITDA are excluded in order to better reflect our continuing operations.

In evaluating Adjusted EBITDA from continuing operations, you should be aware that in the future we may incur expenses similar to the adjustments noted above. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by these types of adjustments. Adjusted EBITDA is not a measurement of our financial performance under U.S. GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with U.S. GAAP or as an alternative to cash flow from operating activities as a measure of our liquidity.

Our Adjusted EBITDA measure has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Some of these limitations are:

- it does not reflect our cash expenditures, future requirements for capital expenditures or contractual commitments;
- it does not reflect changes in, or cash requirements for, our working capital needs;
- it does not reflect the significant interest expense or the cash requirements necessary to service interest or principal payments on our debt;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and our Adjusted EBITDA measure does not reflect any cash requirements for such replacements;
- it is not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows;
- it does not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations;
- it does not reflect limitations on or costs related to transferring earnings from our subsidiaries to us; and
- other companies in our industry may calculate this measure differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. You should compensate for these limitations by relying primarily on our U.S. GAAP results and using Adjusted EBITDA as supplementary information.

Off-Balance Sheet Arrangements

Other than operating lease commitments, we are not a party to any material off-balance sheet financing arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

Impact of Recently Issued Accounting Standards

New accounting standards adopted/issued

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The ASU specifies that debt issuance costs related to a note shall be reported in the balance sheet as a direct reduction from the face amount of the note. The ASU is effective for the Company for interim and annual periods beginning after April 1, 2016. Early adoption is permitted. The ASU will require the Company to reclassify its capitalized debt issuance costs currently recorded as assets on the consolidated condensed balance sheets. The ASU will have no effect on the Company's results of operations or liquidity.

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU")2014-15, Presentation of Financial Statements-Going Concern. The new guidance is effective for the Company's fiscal year that begins on April 1, 2017 and interim periods within that fiscal year and requires management to assess if there is substantial doubt about an entity's ability to continue as a going concern for each annual and interim period. If conditions or events give

rise to substantial doubt, disclosures are required. This new guidance is not expected to have a material impact on the Company's Consolidated Financial Statements.

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU")2014-09, Revenue from Contracts with Customers, which supersedes existing accounting standards for revenue recognition and creates a single framework. The new guidance is effective for the Company's fiscal year that begins on April 1, 2018 and interim periods within that fiscal year and requires either a retrospective or a modified retrospective approach to adoption. The Company is currently evaluating the potential impact on its Consolidated Financial Statements and related disclosures, as well as the available transition methods. Early adoption is permitted, but not before Company's fiscal year that begins on April 1, 2017 (the original effective date of the ASU). We are currently in the process of assessing the impact the adoption of this guidance will have on our consolidated financial statements.

There are currently no other accounting standards that have been issued that will have a significant impact on the Company's financial position, results of operations or cash flows upon adoption.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material changes regarding the Company's market risk position from the information included in the Company's 2015 Annual Report.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of June 30, 2015, an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in its reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There has been no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended June 30, 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

"Item 3. Legal Proceedings" of our 2015 Annual Report includes a discussion of our legal proceedings. There have been no material changes from the legal proceedings described in our 2015 Annual Report.

Item 1A. Risk Factors

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A Risk Factors, of the Company's 2015 Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information relating to our purchase of shares of our common stock during the quarter ended June 30, 2015 (amounts in thousands, except per share price):

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350 ADOPTED
PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

I, Per-Olof Lööf, hereby certify pursuant to 18 U.S.C. Section 1350 adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 that, to my knowledge:
